**"Fireside Tunes and Tales"** The Tennessee National Wildlife Refuge would like to invite the public to an afternoon of sitting by the fireplace, listening to music and stories while sipping on a hot cup of cocoa. Sound like a scene from a Norman Rockwell painting? Actually the event called "Fireside Tunes and Tales" will held Saturday, November 7 from 1 p.m. to 4 p.m. at the refuge visitor center located

at 1371 Wildlife Drive in Springville, TN. This event will feature roaring fires, gorgeous views of Kentucky Lake, live music, storytellers, hot cocoa and tea cakes all free to the public. For more information about this event and the Tennessee National Wildlife Refuge please call 731-642-2091.

**Notice from McKenzie Mayor Jill Holland** If you live in the City of McKenzie, you may be receiving a survey that will be used for grant funds to make improvements in the sewer system. It's very important to return the survey in order to qualify for the much needed improvements and keep our sewer and water rates affordable. All information is confidential and will be kept private.

**Henry Volunteer Fire Department Haunted Hayride** The Henry Volunteer Fire Department will host a Haunted Hayride on Friday and Saturday, October 30th and 31st, from 7 p.m. to 9 p.m. The event will take place at 55 Park Drive in Henry and includes a haunted hayride, games, chili dinner and trunk or treat. The cost for ages 0 - 3 year old is free. Ages 4 - 12 are \$5 and Ages 13 and up are \$10. All children 12 and under must be signed in and signed out by an adult. ## Miss Pearl's Country Cookin'

### Caramel Popcorn

*Original recipe makes 5 quarts*

- 1 cup butter
- 2 cups brown sugar
- 1/2 cup corn syrup
- 1 teaspoon salt
- 1/2 teaspoon baking soda
- 1 teaspoon vanilla extract
- 5 quarts popped popcorn

Preheat oven to 250 degrees F. Place popcorn in a very large bowl. In a medium saucepan over medium heat, melt butter. Stir in brown sugar, corn syrup and salt. Bring to a boil, stirring constantly. Boil without stirring 4 minutes. Remove from heat and stir in soda and vanilla. Pour in a thin stream over popcorn, stirring to coat. Place in two large shallow baking dishes and bake in preheated oven, stirring every 15 minutes, for 1 hour. Remove from oven and let cool completely before breaking into pieces.

### Cheeseburger Meatloaf

*Original recipe makes 8 servings*

- 2 pounds ground beef
- 3/4 cup fresh bread crumbs
- 1/2 cup minced onion
- 2 eggs, beaten
- 1 1/2 teaspoons salt
- 1 1/2 teaspoons ground black pepper
- 3 cups shredded Cheddar cheese

Preheat oven to 350 degrees F. In a large bowl, combine the beef, bread crumbs, onion, eggs, salt and pepper, and mix well. Pat out meat mixture into a 14x18 inch rectangle on a piece of wax paper. Spread cheese over the meat, leaving a 3/4 inch border around the edges. Roll up jelly roll fashion to enclose the filling and form a pinwheel loaf. Press beef in on both ends to enclose the cheese. Place in a 10x15 inch baking dish. Bake in the preheated oven 1 hour, or until internal temperature reaches 160 degrees F.

### Alfredo Potatoes

*original recipe makes 4 servings*

- 4 large russet (baking) potatoes
- 1 tablespoon kosher salt
- 1/2 teaspoon paprika
- 1/2 teaspoon kosher salt
- 1/4 teaspoon white pepper
- 1 pinch cayenne pepper (optional)
- 1 tablespoon butter
- 2 green onions, chopped
- 1/4 cup chopped fresh parsley
- 1 (15 oz) jar Classico® Fresh Four Cheese Alfredo Sauce, divided

Place potatoes into a large pot and cover with salted water; bring to a boil. Reduce heat to medium-low and simmer until tender, about 20 minutes. Avoid over cooking to prevent skins from splitting. Drain. Refrigerate until chilled through. Combine paprika, salt, pepper and cayenne. Preheat oven to 350 degrees F. Grease a 2-quart baking dish with 1 tablespoon butter. Peel the fully chilled potatoes. Grate the potatoes using course box grater or food processor. Layer half the potatoes into the buttered baking dish, season with a sprinkling of prepared seasoning blend, half the diced green onions, some parsley, and half a jar of the Alfredo sauce. Repeat layers ending with the remaining sauce and a sprinkling of the seasoning. Reserve some green onions and parsley for garnish. Bake until hot and slightly browned, 30 to 35 minutes. Garnish with reserved green onions and parsley.

### Chicken Taquitos

*original recipe makes 12 taquitos*

- 6 large peeled, cubed potatoes
- 1 (10.75 oz) can condensed cream of mushroom soup
- 1 1/4 cups milk
- 1 onion, diced
- 1/2 teaspoon ground black pepper

Preheat oven to 375 degrees F. Grease a 2 quart casserole dish. Layer potatoes and onions into the casserole dish. Combine soup, milk and pepper in a bowl, then pour soup mixture over the potatoes and onions. The soup mixture should almost cover the potatoes and onion, if it does not add extra milk. Cover dish and bake in preheated 375 degrees F oven for 60 minutes or until the potatoes are cooked through. At 30 minutes, remove the casserole from the oven and stir once before returning the dish to the oven. Remove from oven and serve.

HOW TO RESPOND TO A PTP: 1st Step - Write a letter. 2nd Step - Put letter in an envelope. 3rd Step - Seal envelope. 4th Step - Write PTP number on back of envelope. 5th Step - Put stamp on front of envelope. 6th Step - Place envelope in second envelope with \$3 (cash only). 7th Step - Seal envelope and mail to: PTP, 512 North Market Street, Paris, TN 38242. Be sure that your letter to be forwarded has a stamp on it otherwise it will not be mailed. PLEASE NOTE: If these instructions are not followed, your reply will not be sent.

WWM, 5'11, 235 lbs, 70 years old, would like lady. I do smoke but that's all. Want to travel. Must be around Paris and nice dresser. PTP392

SWF, 45, 150lbs, 5'3", blue eyes, brown hair. Looking for SWM 30-55 for friendship. My interests are: dancing, karaoke, motorcycle riding (of course on the back of one), boat riding, horse back riding, and being near water in the summertime. I am also an animal lover. I also enjoy going for walks and kicking back, relaxing with a good book to read and watching a good movie. So if you would like to go dancing, singing, or maybe even go for a walk in the park with our dogs and just talk, then write me a letter and send phone number and a picture would be nice too. Please no druggies or alcoholics. I do not smoke but smoking is ok. PTP391

SWM, 44, simple country boy, loves animals. Interested in SWF, 40-44, for friendship. Like quiet nights at home. Must include phone number in letter. PTP402

Looking for a good woman to share my life with. I'm 58 and alone. I'm a Vietnam Veteran and disabled. Looking for a woman between 45 & 50. My interests are rock and blues music, long walks and classic autos. Smoking and social drinking ok. Will not tolerate head games. PTP393

SWM, 61, 185 lbs, 5'7, tired of being alone. I like to travel, go to the lake, motorcycles, eating out. Would like to meet SWF to age 60. Let's have fun - could lead to permanent relationship. PTP394

WWF, 63, reader, loves animals, chocolate, laughing, good times, outdoors. Smoker. Seeking honest, non-drinking, part-time man. PTP395

SWM, 46, brown hair, blue eyes, 170 lbs. Enjoys fishing, swimming, long walks, dining out, home time, movies, and snuggling. Looking for someone to share those fun days and special moments. PTP396

White male, brown hair, brown eyes, 5'10, 200 lbs, non-smoker, non-drinker, mid 50's. Interested in lady wanting one on one relationship. Let's share conversation and have good times together. Reply to all inquiries. PTP397

SWM, 49, 170 lbs, brown hair and eyes. I'm looking for a strong woman who knows what she wants and doesn't mind being in control. PTP398

29 year old SWM, 6'1, brown hair, green eyes. I enjoy the outdoors, movies, eating out. I work on the river so every other month I get a lot of free time. I'm looking for a sweet caring female that knows how to treat her man. I will reply to all. PTP399

SWM, 6', 185 lbs, looking for someone to spend some of these lonely times with. Age is not an issue. I like doing almost anything. Drama free is a must! PTP410

New to the area. Would like to meet someone to do things with. I like yard sales, flea markets, antique malls, etc. Looking for a friend, a cup of coffee and a chat. I don't drink or smoke. I'm 62, 6' and a good person. Will answer all. PTP400

54, brown hair, 6'3, white guy. If you enjoy dining out, going to movies, rides in the car, long walks, being treated like a lady - then I'm your guy. Write and include phone number. Age isn't important to me. PTP401

SWM, 65, own my home, debt free, not overweight. Outgoing and can carry on a conversation easily on any subject. I'm active and an outdoors person. I would be generous to the right female who would be interested in spending a little time with me. I prefer slender women and they must be attractive and clean. Age doesn't matter. PTP404

SWF, early 40's, looking for SWM or Native American. Age is not a big issue as long as you are legal and up to 45 years old. I am a very caring person. I like movies, dining out, flea markets. I like to travel but not drive. I'm looking for my dream guy - not a one night stand. PTP405

SWM looking for SWF, 19-38, for fun and more. I'm 6', 190 lbs, looking for slim female or one who has curves in the right places. Send picture and phone number with letter. Must be in Henry or Carroll County areas. PTP406

SWF, 33, mother of 2, just relocated to Camden. Look for good Christian man that knows how to treat a lady. I'm 5'5, 135 lbs, brown hair, brown eyes. I love the outdoors, karaoke, meeting new people. Life is too short not to be happy. Looking for SWM, 30-45. I will answer all. PTP408

SWM looking for SWF, 55-70, financially secure, normal weight and height. I love auctions, the outdoors. I'm 6', 210 lbs, non-smoker, non-drinker. I'd love to have coffee with you. PTP409

WWF would like to meet WM, 65-75. I don't do drugs, smoke or drink. I like gardening, cooking, antiques, boating. If there are any honest gentlemen that would like to meet me, I'm waiting to hear from you. No liars, drinkers, druggies or gold diggers. Will answer all. PTP411

SWF in search of SWM, 50-60. My likes are animals, thunderstorms, a good ghost story. Please send phone number. Hippies a plus. PTP412

WWM, 6', 170 lbs, brown hair, blue eyes, seeking lady, 18 or older, who likes exciting life, daredevil style, and willing to relocate. I enjoy the outdoors, cooking, grilling out. No druggies or alcoholics. The skinnier the better and looking for active, fun relationship - long term or permanent. Any race. Please send phone number. PTP413

SWM looking for SWF, 39-40, with no kids for friendship only. Must be nice looking. Please send picture of yourself. PTP414

WF, 60's, 5'6, 180 lbs, green eyes, dark hair, seeking African American male, 55-65. Must be independent, enjoy the simple things, like blues music, old movies, home cooked meals. I rescue animals so animal friendly is a plus. Will answer all. PTP415

SWF, 70 years old, 4' 9" and 175 lbs. New in area and would like a male friend to date. Maybe coffee or a meal. No smoker or drinker and no drugs. PTP 446

Attractive WBCF, 50, 170 lbs, 5'4, wants to meet someone for companionship. Black hair, brown eyes. Seeks single gentleman, 45-65, that goes to church and likes to fish. Smoking ok. Include picture. PTP416

Wide-boned white woman, 5'7, 175 lbs, brown hair, blue eyes, 69 years old, would like to meet white man, 65-74, no drugs or alcohol. I like flea markets, going to the lake, eating out, taking walks with that special someone. PTP417

# Your Weekly Love Horoscope

**Aries**

**March 21-April 19**

You may be accustomed to the repetitive waves of energy that periodically surge through your life these days. But the Moon's current visit to your sign is another reminder of the big changes looming everywhere you turn. You are experiencing a bit of a cosmic roller-coaster ride today and could be easily overwhelmed by your emotions. Opening your heart to a friend might make you feel uncomfortable at first, but will ultimately calm your nerves and help you reestablish your center. Everyone needs someone to lean on sometimes.

**Taurus**

**April 20-May 20**

Social commitments are stacking up on your calendar, making you realize that you don't have much time to spare. You may need to clarify your boundaries by saying no if you've managed to spread yourself too thin. But it's not that you're choosing to be antisocial; it's simply that you have too much on your plate. Avoid unproductive distractions now, even if you are feeling the urge to escape your obligations. Focus on your agenda and you'll be through this crunch sooner than you expect.

**Gemini**

**May 21-June 20**

You want people to believe that you're eagerly embracing the future. You might even pretend that all is perfect in your world today, but you're afraid of being harshly judged if you admit to holding onto the past. Although you're usually adept at steering clear of unnecessary emotional drama, your impulsive actions could inadvertently stir up an uncomfortable level of intensity now. Being honest about your fears is the first step to resolving your insecurities. Revealing your vulnerability allows others to know the real you.

**Cancer**

**June 21-July 22**

Your urge to be spontaneous could be constrained by memories of a past rejection that arise when you swing into motion. Luckily, reviewing your personal history enables you to learn from previous mistakes and push through the current resistance. No matter what happens, taking the initiative boosts your self-esteem and gives you the courage to ask for what you want. Act on your feelings instead of just experiencing them so that the universe knows you mean business.

**Leo**

**July 23-August 22**

A powerful surge of confidence inspires you to put an untried idea into definitive motion. You can do nearly anything you set your mind to while the Moon lights up your adventurous 9th House of Big Ideas. You have sufficient momentum to plan for the future, even if you haven't yet processed the unfolding dynamics of the present moment. Fortunately, you don't need to figure out everything all at once; examine all the angles while the universe works its magic on your behalf.

**Virgo**

**August 23-September 22**

You're craving new experiences today, but reality is telling you to hold your horses. You may be bound to promises you made in a relationship, but something happens that reawakens your desires and re-energizes your passion for living. However, you cannot just forget about your commitments and sail off into the sunset without letting others in on your plans. It's best to make drastic changes on another day rather than turning your life upside down now and regretting it later.

**Libra**

**September 23-October 22**

Defining the line between love and codependency is particularly tricky now, especially because making other people happy comes so naturally to you. The Moon's emphasis on your 7th House of Relationships highlights how difficult it is to be completely yourself today when someone else's needs conflict with yours. Although honoring your heart might create a ripple of stress at first, it also makes you a better partner in the long run. An equal amount of give and take is essential for a happy and healthy partnership.

**Scorpio**

**October 23-November 21**

You're walking close to an emotional edge today, but it's wise to keep your feelings to yourself. Your patience has run out and you're on the threshold of doing something that you might later regret. There may be too much at stake to take an unnecessary risk now, so try working off your anxiety through physical exercise or hard work. You'll feel much better if you channel your nervous tension into something positive that you can be proud of at the end of the day.

**Sagittarius**

**November 22-December 21**

You are sorely tempted to gamble with your heart because you're feeling lucky in love today. Maintaining a positive attitude is almost always a good rule to follow, but your sunny optimism might be too much of a good thing now. Putting your feelings out there won't necessarily lead to failure, but choosing a proven path improves your chances for success even more. Give others time to reflect on your disclosure; relaxing your expectations helps you avoid unnecessary disappointment. Love is a dance which can't be rushed.

**Capricorn**

**December 22-January 19**

Although you possess an ambitious plan to reach your goals, your foundation may be weak if you don't trust your perceptions. You might be so self-critical now that you assume you can't sustain your productivity as you move into unfamiliar territory. You could exhaust yourself before you reach your destination if you are pushing too hard. Paradoxically, slowing down today can actually help you achieve success quicker than you think. Whatever you do, don't stop believing in yourself.

**Aquarius**

**January 20-February 18**

You may be spinning your wheels today, distracted by one little thing after another. However, karma gets you every time you wander away from your work and immediately sets you back on track. You don't have a lot of time to waste if you want to complete the tasks in front of you. Maintain clear intentions and stay singularly focused on your goals if you hope to accomplish everything on your list. Sadly, sometimes all work and no play is the only solution.

**Pisces**

**February 19-March 20**

You recently embarked on an exciting new path, but you could encounter complications today as someone blocks your way. In fact, the resistance you receive might make you wonder if you're headed in the right direction. However, there's no reason to get discouraged; the current obstacles are meant to help you get serious about your work rather than preventing any further progress. Don't throw in the towel now; your perseverance is absolutely essential for bringing your project into the future. Where there's a will, there's a way.

# Taking The Pressure Off Cold Weather Driving

(NAPS)—Heavy snow and slick ice on the roads can be a white-knuckle experience for even the most experienced drivers if the automobile isn't properly outfitted for the weather.

While knowing proper driving techniques is important, a good set of winter tires can be the difference between getting where you have to go safely and feeling your heart leap into your throat as your car slides through an

ice-covered intersection.

So what do you need to know? Here's a list of commonly asked questions along with answers to help you understand how winter tires can help you.

## What's the difference between "winter tires" and "snow tires"?

Winter tires are designed to work in all winter conditions, not just

snow. The tire compounds are optimized to provide grip even on dry roads in weather below 45° Fahrenheit. Also, winter tread patterns are designed to provide excellent grip in icy and snowy conditions.

Now, there is little difference between a studded tire and a winter tire without studs. For instance, Nokian Tyres, a Finnish company known for its expertise in developing and testing tires in demanding

road wear in relation to the typical studded tires of the '60s and early '70s. This new stud technology makes the tire extremely gentle on its driving surface, even while its winter

below this, the tire compounds harden in the cold weather and lose their ability to grip. Winter tires are designed to provide grip in colder temperatures. This is why they're "winter" tires, not "snow" tires—they provide

an. "Winter tires don't just combat snow and ice, they're specifically designed and tested to function better in areas where temperatures can drop down below freezing for months at a time."

## Can I use studded winter tires?

Studded winter tires were once perceived as loud and damaging to the road. However, through innovations in studding technology, the noise and road wear from the studs have been greatly reduced.

northern conditions, makes a winter tire, the Hakkapeliitta 8, that features a new tread pattern with 50 percent more studs than its predecessor. When compared to studded tires of the past, these modern studded tires cause only 20 percent

grip properties are better than ever before.

## I don't get much snow, so why do I need snow tires?

In general, non-winter tires are designed for performance at 45° and above. When used in temperatures

increased safety in cold, not just snow. "The truth is, winter tires are engineered specifically to perform most effectively in harsh environments where colder temperatures are the norm," said Bernie Del Duca, president of North America for Noki-

## Can't I just get two winter tires?

While this used to be the conventional wisdom, this creates the hazardous condition of having one axle that has grip while the other does not, resulting in an increased chance of a spin-out.

### Will winter tires lower my gas mileage?

Gas mileage typically dips in the winter due to several factors. While winter tires may contribute, the effect is minimal; a decrease in gas mileage often has more to do with winter gas, which has special additives that affect engine performance. Roof racks and ski boxes add aerodynamic drag; these can also affect gas mileage.

### Can I drive my winter tires all year round?

Using winter tires year round is not recommended.

Modern winter tires may wear unnecessarily quickly, particularly on coarse spring roads and on hotter summer roads. The wear may be uneven as well. Many tire dealers offer storage for off-season tires, making seasonal tire changing easy for drivers.

### When should I put on my winter tires and when should I take them off?

In the fall, once temperatures are consistently at 45° or below, any driver will benefit from the grip of winter tires. It may make sense to put them on a bit early

to avoid the tire changeover rush that happens once the first snowfall hits. At the end of the season, it's best to remove winter tires once temperatures are consistently over 45°.

### I have four-wheel drive or all-wheel drive so I don't need winter tires, right?

Acceleration with original equipment tires in winter conditions is relatively easy to achieve with AWD and 4WD. The problem comes when there is a need to steer or stop in a hurry and the tires do not grip. This is why you see so many

SUVs and 4X4s off the road in the early season storms. All-wheel-drive and four-wheel-drive vehicles benefit from winter tires just as much as front-wheel-drive vehicles do.

### How will winter tires affect my vehicle's handling and braking?

In general, dry handling and braking will be affected only slightly when using winter tires but the gains in winter weather safety are significant. The biggest change in dry handling and braking a driver could see would be a move from a UHP (ultra-high performance)

summer tire to a studded winter tire. Learn More For more facts on tires and to locate a local dealer, go to [www.nokiantires.com](http://www.nokiantires.com).

# Winter Is Coming: Is Your Fuel Ready?

(NewsUSA) - Winter is coming -- and that means it's time to store seasonal tools and recreational equipment. Safe, smart storage of motorcycles, RVs, power equipment and seasonal cars goes a long way towards keeping them at their best to ensure peak performance

in the spring. To keep the fuel in gas-powered machines and equipment in peak shape through winter storage, consider these three elements:

## Time Is the Enemy

Fuel in gas-powered equipment that

remains in storage during the winter months needs to be stabilized to ensure easy starts and full power in the spring. Untreated fuel begins to oxidize, losing quality and combustibility over time, which leads to engines that are hard to start or run rough.

## Fuel

Draining gas from power equipment or cars is one way to prevent gunk and debris from forming, but it isn't always a practical solution. One alternative -- add a fuel

within 30-45 days. However, an enzyme stabilizer, such as Star Tron Enzyme Fuel Treatment, will stabilize gasoline for up to 2 years. Star Tron does much more than simply sta-

# Winter Driving Poses Special Challenges

(NewsUSA) - Car owners might maintain their vehicles to avoid paying more in fuel costs, but regular maintenance also means safer winter driving. A summer breakdown proves inconvenient, but mechanical problems on icy roads can be deadly.

The experts at the non-profit National Institute for Automotive Service Excellence (ASE), which formed in 1972 to improve automotive service and repair, offer motorists the following checklist to ensure safe driving this winter:

- Read your owner's manual, and follow the service schedules.

- Get engine driveability problems, like hard starts, rough idling and stalling, corrected at a good repair shop. Cold weather will make existing problems worse.

- Replace dirty filters, including your air, fuel and PCV filters. Change your oil and oil filter as

specified in your manual -; more often if your driving is mostly stop-and-go or consists of frequent short trips.

- Flush and refill your cooling system as recommended. Check the level, condition and concentration of the coolant periodically. Never remove the radiator cap until the engine has thoroughly cooled.

- Leave some jobs to the experts. A certified auto technician can check the tightness and condition of drive belts, clamps, and hoses. ASE-certified technicians pass strict tests to prove their expertise and wear blue-and-white ASE shoulder insignia. For more information, visit [www.ase.com](http://www.ase.com).

- Make sure the heater and defroster are in good working condition. A failed heating system will leave passengers cold, while a broken defroster can dangerously reduce visibility.

- Hire a technician to check your battery. Only professional equipment can detect weak batteries. Wear eye protection and rubber gloves when cleaning off corrosion.

- Worn tires slip easily, making vehicles more likely to skid. Examine tires for remaining tread life, uneven wearing and cupping, then check the sidewalls for cuts and nicks.

- Check tire pressure once a month. Let the tires "cool down" before checking the pressure. Rotate as recommended. Don't forget your spare, and be sure the jack is in good condition.

- Have your vehicle's exhaust system examined for leaks. The trunk and floorboards should be inspected for small holes. Exhaust fumes can be deadly.

- Keep a blanket, shovel, flares and some high-energy snacks in the vehicle just in case. And don't forget your cell phone.

# Safety Features in Your Car That You May Not Know About

(StatePoint) Today's vehicles come with an abundance of new features and technologies that can aid drivers, make passengers more comfortable and provide real-time information about a vehicle's health. Most importantly, many vehicle technologies today are designed with safety in mind and have the potential to save lives.

The trouble is, too many drivers do not realize these features exist, or know how to use them to their full potential.

A recent University of Iowa study found 40 percent of drivers have been startled or surprised by something their vehicle has done -- a troubling finding given that car crashes are a leading cause of preventable death in the United States.

“Technology can be a game-changer when it comes to safety,” said Deborah A.P. Hersman, president and CEO of the National Safety Council. “In order to fully recognize the benefits of these new systems, drivers need to be aware of them and also understand their limitations.”

With this need in mind, NSC partnered with the University of Iowa to launch “My Car Does What”

-- a virtual owner's manual that demystifies the latest, most cutting-edge vehicle features.

The campaign's website, [www.MyCarDoesWhat.org](http://www.MyCarDoesWhat.org), highlights technologies such as:

- *Back-up cameras* that provide a view of the blind zone directly behind the car when the vehicle is in reverse
- *Blind spot monitors* that alert drivers when something is in their

blind spot

- *Forward collision warnings* that warn drivers when they are closing in on the vehicle ahead too quickly

- *Automatic emergency braking systems* that apply the brakes if the system detects an imminent collision

- *Anti-lock braking systems* that prevent wheels from locking up, helping to avoid uncontrolled skidding and providing some

steering control in slippery conditions

- *Rear cross traffic alerts* that warn drivers if traffic is approaching from the left or right when the vehicle is in reverse

- *Adaptive cruise control* that maintains the speed set by the driver and a pre-set following distance

- *Lane departure warnings* that alert drivers if they drift into another lane when the turn

signal is not activated.

For a full list of vehicle safety technologies, explanatory videos, graphics and articles, visit [MyCarDoesWhat.org](http://MyCarDoesWhat.org).

“The driver will always be a car's best safety feature; no technology today will change that,” Hersman said. “But these features can help mitigate errors before they result in deaths and injuries.”

# When The Rubber Hits The Road—Or Ice—This Winter, Will You Be Ready?

(NAPS)—In winter, it's not just about the precipitation on the road. Tires get cold, too, and when they're cold, all-season tires don't perform to their full potential. In fact, in temperatures as cool as 45 degrees or below, the rubber in all-season tires gradually hardens, leading to decreased road traction and less grip, causing difficulty with braking and turning. Winter tire safety experts at Discount Tire urge drivers to consider their cold weather climate; if it is regularly below 45 degrees, it's time for a set of winter tires to keep you and your family safe on the roads this year.

"Too often, motorists associate winter tires with only snow and ice," said Mark Marrufo of Discount Tire. "At Discount Tire, we take winter tire safety seriously and know it's important for drivers to realize that all-season tires can suffer performance issues on any driving surface when temperatures drop below 45 degrees, snow or no snow."

Winter tires use specially engineered tread rubber with enhanced compound to add the extra grip needed in winter driving conditions that helps keep a car safely in motion

Josh at Mr. Tire changing a tire

without skidding off the road. This added grip provides 25 to 50 percent more traction in snow and ice than regular all-season tires. Tread design in winter tires also uses thousands of extra traction edges for exceptional grip in cold weather driving conditions where ice, snow, slush and water may be present. What drivers may not realize is precipitation can actually pack in

the larger grooves on all-season tires, leading to dangerous skidding and impaired braking.

Five tire and road safety tips for winter this year:

**1.** Replace your all-season tires with superior cold traction winter tires if you regularly drive in temperatures of 45 degrees or below. Make sure to replace all four tires to avoid an unsafe traction mismatch.

**2.** Don't forget the wheels when switching to winter tires. Having a set of wheels specifically for your set of winter tires will save money in the

long run. They pay for themselves by eliminating the cost of changeovers at the beginning and end of the winter season, and by saving your expensive wheels from

the wear and tear of ice, slush, snow and salt.

**3.** Check tire pressure regularly and don't forget to check the spare. Underinflated or over-inflated tires may result in poor handling, uneven tread wear and poor fuel consumption. For every 10 degrees change in temperature, tire air pressure changes 1 psi!

**4.** Rotate your tires at least every 6,000 miles or earlier if irregular or uneven wear develops.

**5.** Make sure your tire shop properly torques the lug nuts to the specifications for your vehicle when changing over to winter tires. For those drivers unsure whether or not winter tires are necessary for their vehicle, stop by any Discount Tire location for a free safety inspection. To locate a store near you, schedule tire service appointments or search tires and wheels by size, brand and style—or by vehicle year, make and model—visit [www.discounttire.com](http://www.discounttire.com).

Stay safe on the roads this winter by checking your tires ahead of time.

**WE HAVE A SOLUTION TO EVERY NEED!**

(NewsUSA) - Winter driving creates special challenges, which can only be amplified by the long trips many Americans will take over the holidays. To avoid unexpected problems, Mom and Dad should take their vehicle to a shop before they herd the kids into the car and head off to grandma's.

The professionals at the nonprofit National Institute for Automotive Service Excellence (ASE) offer the following advice for motorists looking to pick the right repair shop.

- Start shopping for a repair facility before you need one. You can make better decisions when you are not rushed or in a panic.

- Ask friends and associates for their recommendations. You may be amazed at how much another person's experience can help.

- Consult your local consumer organization(s) regarding the reputation of the business. Inquire about complaints and the rate of resolution of complaints.

- Look for a neat, well organized facility, with vehicles in the parking lot equal in value to your own and modern equipment in the service bays.

- Look for a courteous staff, with a service writer willing to answer your questions. Be prepared to describe any symptoms, like noises,

unusual leaks or odors, smoke or handling problems, or carry a written list to give to the service consultant.

- Ask if the repair facility specializes in certain types of repair work.

- Look for signs of business professionalism in the customer service area such as civic, community, or customer service awards.

- Look for qualified technicians as evidenced by trade-school diplomas, certificates of advanced course work or on-going training, and individual technician certification by ASE.

- Look for policies regarding labor rates, diagnostic fees, guarantees and acceptable

methods of payment.

- Keep all of your paperwork. Good records will help clear up problems that may occur later on in the vehicle's life.

For more information, including seasonal car care tips, visit [www.ase.com](http://www.ase.com). ASE was founded in 1972 to improve the quality of automotive service and repair through the voluntary testing and certification of automotive technicians. ASE-certified technicians wear blue and white ASE shoulder insignia and carry credentials listing their exact areas of certification. Their employers often display the blue and white ASE sign.
