# Your Weekly Love Horoscope

 <b>Aries</b> March 21-April 19 Your unwillingness to make less of your feelings today is admirable, especially if you are encountering harsh judgment from others. Although its important to stand up for your beliefs, you still need to get along with those close to you. Dont try to persuade anyone to see your decisions from your perspective. Step beyond your comfort zone and listen to the feedback you're receiving now, even if its not what you want to hear. Author John C. Maxwell wrote, Change is inevitable; growth is optional.	 <b>Taurus</b> April 20-May 20 You're not one to turn your feelings off or on in a moments notice. In fact, youre known for your stubbornness when people try to convince you to change your mind. Although you might encounter resistance when you express your desires today, you wont likely back down in the face of disapproval. In fact, youre more than ready to confront any opposition, especially if you are shining your love light for the benefit of others. Author Cathy Hopkins wrote, Dont wait for your ship to come in, swim out to it.	 <b>Gemini</b> May 21-June 20 You typically trust the logic of words more than the unreliability of irrational feelings. However, you are in no mood to explain your behavior today, and might ignore those who try to reason with you. Nevertheless, there are several ways to view the current situation, especially if it involves complicated emotional dynamics. Dont assume your certainty means that you are taking the best course of action. Demonstrate your intelligence by remaining open to alternative interpretations now. Your independence is non-negotiable; the final decision is still yours.	 <b>Cancer</b> June 21-July 22 Youre capable of seeing people from a very different perspective today. While your natural tendency might be to judge someones lifestyle choices based upon yours, you could easily take a more enlightened attitude and support them -- even if you dont approve of their behavior. Nurturing those you respect is your highest calling and you can operate at the top of your game now if you refrain from imposing your values on others. Artist Vincent van Gogh wrote, Love is something eternal; the aspect may change, but not the essence.	 <b>Leo</b> July 23-August 22 There's no need for dramatic gestures today when expressing your hearts desire. But navigating the wild emotional swings youre feeling is tricky because suppressing them only makes them stronger. Nevertheless, a calm and cool approach to achieving satisfaction will get you further than throwing a tantrum. Your best bet is to focus on balancing the unrestrained passion youre experiencing on the inside with the even-keeled behavior you want to express on the outside. When your love is strong, you dont have to shout.	 <b>Virgo</b> August 23-September 22 You can focus your creativity like a laser beam today, inspiring you to accomplish amazing results in a very short period of time. Its as if you possess the magical power of being able to stop the clock while you continue to move at the speed of light. Your current success will depend on your willingness to temporarily let go of your self-criticism and trust your heart. Get your ideas out into the open now, and then improve upon them later on. Author H. Jackson Brown, Jr. wrote, Strive for excellence, not perfection.
 <b>Libra</b> September 23-October 22 You are in touch with the inner workings of your heart today, prompting you to explore the origins of your desires. But others may not realize how intense your attractions are while your key planet Venus the Lover is hiding out in your 12th House of Invisibility. Nevertheless, her easy connection with shadowy Pluto enables you to recover hidden treasures from the darkness of your subconscious. Stay away from crowds and take a walk within. You can make an amazing breakthrough now, even if no one else notices.	 <b>Scorpio</b> October 23-November 21 You are determined to tell your friends how important they are to you now. However, your passionate nature might make some people uncomfortable. Although you have no reservations about sharing your heartfelt appreciation today, your message may seem too personal for someone who isnt at ease with their own feelings. Thankfully, you can avoid an awkward interaction by choosing words that dont trigger such an emotional charge. Nevertheless, as former Israeli President Ezer Weizman said, Anyone who says he is not emotional is not getting what he should out of life.	 <b>Sagittarius</b> November 22-December 21 You are looking at your life through a very practical lens today. Although you can project your current circumstances into the future and visualize your path forward, youre more concerned with how your journey will translate into financial success. You want to be appreciated for your continuing contributions at work, but you might prefer a pay raise to words of praise or a new title. Fortunately, enriching Venus in your 10th House of Career is supported by powerful Plutos presence in your 2nd House of Money. Bob Dylan quipped, Having these colossal accolades and titles, they get in the way.	 <b>Capricorn</b> December 22-January 19 Youre intent on demonstrating your leadership skills today, but you dont necessarily want to flaunt your power. In fact, you would rather set the pace by running ahead of the pack, inspiring others to follow your example. Youre less interested in exerting control because you want to avoid being set up for a fall. Nevertheless, you can have the best of both worlds by simply actualizing your potential. Nelson Mandela said, There are times when a leader must move out ahead of the flock, go off in a new direction, confident that he is leading his people the right way.	 <b>Aquarius</b> January 20-February 18 Youre uncharacteristically eager to sink into your feelings today because of an irresistible connection with someone special, whether in reality or in fantasy. Youre extremely attracted to the same emotional mysteries that you normally avoid. Although youre often satisfied with love as an intellectual abstraction, you are enchanted by the possibility of expressing your passion through a total mind-body experience now. Follow your heart; it knows the way.	 <b>Pisces</b> February 19-March 20 There is no such thing as a gradual approach to love today. Your passions are running steamy hot or icy cold with very little moderation now. Thankfully, you are quite comfortable with your emotional extremes while potent Pluto aligns with virtuous Venus in your 7th House of Relationships. This current intensity can be very refreshing if you simply engage the energy directly. However, too much sustained excitement eventually becomes exhausting. Enjoy the magic while it lasts without trying to hold onto it once it subsides.
