DUN-FOUND-IT GAME FOR FEBRUARY 1, 2018

Miss Pearl's Country Cookin'

Salt and Pepper Beef & Lettuce Wraps

1 teaspoon salt
1 teaspoon ground white pepper
1 teaspoon ground black pepper
1 tablespoon extra virgin olive oil
450g lean diced beef
1 large red onion, cut into 2cm pieces
16 baby cos lettuce leaves
1 cup bean sprouts, trimmed
16 large fresh mint leaves
2 small lemons, each cut into 6 wedges

Preheat a large chargrill pan over medium-high heat. Combine salt, white pepper, black pepper and oil in a glass or ceramic bowl. Add beef. Toss to coat. Thread beef and onion onto skewers. Chargrill skewers, turning, for 5 minutes for medium or until cooked to your liking. Transfer to a tray. Cover loosely with foil. Stand for 5 minutes to rest. Meanwhile, place lettuce leaves, in a single layer, on a large serving platter. Top each with bean sprouts and mint. To serve, place 1 beef skewer on top of each lettuce leaf. Serve with lemon wedges.

Pizza Scrolls

2 cups self-raising flour
30g butter, chopped
3/4 cup milk
1/2 cup tomato pasta sauce
1 cup grated tasty cheese
100g shaved Virginia ham, chopped
225g can pineapple pieces, drained

Preheat oven to 200C or 180C fan-forced. Line a large tray with non-stick baking paper. Sift flour into a large bowl. Add butter and rub in with your fingertips until evenly combined. Make a well in the centre of flour mixture and pour in the milk. Mix in with a flat-bladed knife until mixture is moist and starts to clump together. Gather the dough into a ball and turn out onto a lightly floured surface. Press dough into a roughly rectangular shape. Using a rolling pin, roll dough out to a 35cm x 25cm rectangle. Spread pasta sauce over the dough leaving a 3cm space along the two long edges. Sprinkle cheese, ham and pineapple over sauce. Starting from a long side, roll into a log. Cut into 12 slices. Place onto tray, cut side up and with ends turned inwards so they don't unroll while cooking. Bake for 25 minutes until risen and golden brown.

Ginger Spice Cake

125g butter, chopped
2/3 cup (230g) golden syrup
1/3 cup (70g) brown sugar
2 cups (300g) self-raising flour
1 1/2 tablespoons ground ginger
2 teaspoons ground cinnamon
1/2 teaspoon ground nutmeg
1/2 teaspoon ground cloves
2 Coles Australian Free Range Eggs
1/2 cup (125ml) buttermilk

Caramel icing
1/2 cup (110g) brown sugar
50g butter
2 tablespoons thickened cream
2/3 cup (110g) icing sugar mixture

Preheat oven to 180C. Grease and line the base and sides of a 10cm x 21cm loaf pan. Place butter, golden syrup and sugar in a saucepan over low heat. Cook, stirring, for 2-3 mins or until butter melts and the mixture is smooth. Set aside to cool. Combine flour, ginger, cinnamon, nutmeg and cloves in a bowl. Add the eggs, buttermilk and butter mixture and stir to combine. Pour into the prepared pan. Smooth the surface. Bake for 40-45 mins or until a skewer inserted in the centre comes out clean. Set aside in the pan for 5 mins to cool. Turn onto a wire rack to cool completely. Meanwhile, to make the caramel icing, combine the sugar, butter and cream in a medium saucepan over low heat. Cook, stirring, for 3 mins or until the butter melts and sugar dissolves. Increase heat to medium. Bring to the boil. Cook for 2 mins or until the mixture thickens slightly. Remove from heat. Set aside for 10 mins to cool slightly. Add the icing sugar and stir to combine. Set aside for 30 mins or until cooled completely. Place the cooled ginger cake on a serving plate. Spread with the caramel icing. Cut into slices to serve.

Your Weekly Love Horoscope

Aries
March 21-April 19

Your life continues to grow stranger and stranger — and you're still not sure this is the end of it. A complicated relationship could take an unexpected turn. A project that was on schedule might suddenly unravel. Or, perhaps, a long-term spiritual practice dramatically propels you into another dimension. Although it's impossible to predict the next level of surreal, two things are important to know. First, there is magic at work and it can improve your life. And second, things may get chaotic before you see any progress. Hunter S. Thompson wrote, "When the going gets weird, the weird turn pro."

Taurus
April 20-May 20

A relationship with someone special is opening your heart and mind in entirely new directions. However, change is not easy, especially when it pulls you off the paved highway and into the unexplored jungle. Nevertheless, your senses are alive and tingling, and you are eagerly awaiting what comes next. Let go of your expectations since they will only keep you from fully engaging in the present moment. A world of experiences that you never imagined is the palette you will use to paint your future.

Gemini
May 21-June 20

Opportunities at work can clear a path to your success, but only if you're willing to set aside what you've learned on the job so far. It's not that your previous experience has led you astray; it's just that any assumptions based upon what you think you know could prevent you from seeing the array of possibilities ahead. The cosmos is inviting you to play a whole new game, and the old rules no longer apply. Roll the dice and take a chance on you.

Cancer
June 21-July 22

You are looking at your future through a very practical lens as you gaze off into the distance today. Nevertheless, the safety-conscious Taurus Moon can keep you from making the most of this fortuitous moment. Throwing away your map frees your mind to perceive reality as it is, rather than how it's drawn. At this point in time, it's more important to make your own connections rather than relying on anyone else's. It may take longer to arrive at your destination if you get lost along the way, but your journey will be one that you will never forget.

Leo
July 23-August 22

You know what you should do today, especially if you want to maintain stability in a long-term relationship. But you have a sneaking suspicion that there is more going on than your five senses can tell you. You know you need to explore these unseen realms, but you don't know where to find them. Don't make any dramatic changes yet; start asking questions and do your share of research. Rely on your intuition to find the answers you seek.

Virgo
August 23-September 22

Your overly analytical mind will only entangle you in verbal threads, turning you into a spider trapped in its own web. Words are of no help while your key planet Mercury — which is normally your connection to logic — is dancing with physical Mars and spiritual Neptune out beyond the constraints of language. Any attempts to describe your destination only makes it impossible to reach. Stop talking and start creating. Let your art speak for itself.

Libra
September 23-October 22

You want everything in your life to be simple and straightforward today, but as you learn more, reality grows increasingly complex. Its as if your intelligence opens the door to a spiritual path that no longer takes you to where you thought you were going. Your first reaction may be to fight against the direction your destiny is calling. However, daunting your journey ahead might seem, the rewards are greater than you can imagine. Ryunosuke Satoro wrote, "Let your dreams outgrow the shoes of your expectations."

Scorpio
October 23-November 21

Although self-exploration can be exhausting at times, you love to discuss the meaning of life in ways that are too intense for most people. However, there may be more opportunities to deep dive into the magical shadows of the subconscious now, making it all the more difficult to hang out in typical social environments. Keep your eyes and ears open as making profound connections with like-minded people can rock your world. Continue to emerge from your cocoon on your own schedule and not according to anyone else's expectations. Be the star you wish to see.

Sagittarius
November 22-December 21

You are transforming in ways that are not obvious to others, yet your heightened awareness is part of a trajectory that will ultimately lead you to fulfill your destiny. But trying to understand the larger picture now could be a wasted effort. There are additional pieces that still need to fall into place. In the meantime, keep an open mind and an open heart. Believe in the unexplainable today. Lao Tzu wrote, "The key to growth is the introduction of higher dimensions of consciousness into our awareness."

Capricorn
December 22-January 19

It's tempting to put all your eggs in one basket today, but that strategy invites swift failure. Rather than concentrating most of your energy on your personal agenda, widen your sites and expand your peripheral vision. Adding social events to your calendar is one way to solidify relationships with your friends and your local community. Strengthening your support network now will pay off when you need it in the future.

Aquarius
January 20-February 18

Recognition for your contribution at work could be forthcoming, but it may manifest very differently than you expect. Do your best to avoid assumptions about future activities, because your preconceived notions could interfere with a best-case scenario that's outside of your current thinking. You are rolling along on a track and will likely see your path through to its conclusion before making any major changes. Success arrives in surprising packages.

Pisces
February 19-March 20

There may be some exciting travel plans in your future but you might want to schedule your trip right away, before action-oriented Mars leaves your 9th House of Expeditions tomorrow. Unfortunately, you will only confuse matters if you try to nail down the specific dates now. Instead of being preoccupied with the logistics, stay focused on the big picture. Choosing your destination allows you to color in all the details in your imagination first.
