An acceptable container would be to use a metal barrel with a half inch mesh screen cover. To obtain a free burn permit you can call the Carroll County Forestry Office at 731-986-5550.

Your Weekly Love Horoscope

Aries
March 21-April 19
Life is breathed into your daydreams today as they cross the veil which separates fantasy from reality. Desirous Venus debuts in your 1st House of Personality, imbuing you with charm, courage and a splash of impatience. You're unwilling to lay down your sword and surrender now; you're ready to go after what you want without compromise. Although your dreams are playing out before you in full color and clarity, a nod from potent Pluto reminds you that this is a marathon, not a sprint. Combining passion with perseverance is the only way to win.

Taurus
April 20-May 20
Something marvelous is beginning to brew, and you're craving peaceful solitude where you can listen to the quiet music that is playing deep within your heart. Alone time is essential for incubating your ideas, but unfortunately, the world doesn't wait around for anyone. The down-to-earth Taurus Moon makes a challenging aspect to the forward-thinking Aquarius Sun, encouraging you to test your resolve and make the adjustments needed for professional progress. Thankfully, your dreams will still be there when you get back from work.

Gemini
May 21-June 20
You're an expert on the field of verbal athletics, able to play both sides of a conversation with finesse. However, you may begin to grandstand and swing for the fence now that acquisitive Venus suits up in independent Aries. This impassioned approach to your aspirations is exhilarating, but the grounded Taurus Moon reminds you to take a timeout when needed so burnout doesn't sabotage your game. Stepping back from the plate provides a wider perspective.

Cancer
June 21-July 22
Your vocational goals take center stage and it's time to see if your preparation has paid off. Vivacious Venus strides into your 10th House of Career today, eager to refashion your public image and take you to new heights. It may not be your nature to speak up and demand satisfaction, but you're beginning a new phase in which you find your voice rising above the rest. However, simply being the loudest in the group won't bring you long-term satisfaction. It's not about being better than anyone else; it's about being better than you were yesterday.

Leo
July 23-August 22
Expanding your repertoire can be exhilarating now, and you're eager to strive for the next level by mastering something new and exciting. However, your immersion into the world of learning may prove to be more like diving into an ocean than a swimming pool. Insatiable Venus surges into impatient Aries, but a nudge from unrelenting Pluto warns that the journey might be longer than you think. Nevertheless, your dreams are within reach -- just remember to rehearse before rushing to launch your new show.

Virgo
August 23-September 22
The path to the top isn't always a straight line, and you're acutely aware of the rigorous testing that must happen to prepare yourself for advancement. Nevertheless, the heat is intensifying, requiring you to face the deep changes that rumble within. Magnetic Venus enters your 8th House of Metamorphosis, turning your gaze away from the outer world. Self-transformation is a bold and admirable task, and you're up for the challenge now. Henry Ford said, "If you think you can or you think you can't, you're right."

Libra
September 23-October 22
Cupid's arrow has been dipped in a passion potion and directly hits its target today. Sassy Venus saunters into sexy Aries, highlighting your 7th House of Partnerships and setting your heart on fire. You approach your relationships with new certainty, unafraid to boldly state exactly what you want. Limber Libras often adapt to the needs of others, and this move toward decisive action may render you more impatient than usual. Your desires seem simple to you, but they paint a more complicated picture to everyone else. Hang onto your trademark tact as you chase what you crave most.

Scorpio
October 23-November 21
Your closest companions want your time and attention today, but a complex inner atmosphere ties an easy decision into a rather complicated knot. While you prefer to relax with the ones you love, passionate Venus blazes into your 6th House of Wellbeing, encouraging you to get off the couch and spice up your routine. Creating new habits is a positive step in the right direction, but obsessing over every detail can detract from your health instead of improving it. Stop pursuing happiness, create it.

Sagittarius
November 22-December 21
You're eager to paint the town red when vibrant Venus dances into impulsive Aries, lighting up your 5th House of Play like a city skyline. Instant gratification is the name of your game as you see no reason to hold anything back. However, a tense square between the objective Aquarius Sun and the practical Taurus Moon reminds you to rearrange your priorities before throwing your schedule out the window. Guilt can ruin the best of times; letting loose is more fun when you complete your work first.

Capricorn
December 22-January 19
Everyone knows you're ambitious by nature and it's not uncommon for you to bring your work home. However, your attention is shifting to what you can do to make your place more beautiful as stylish Venus charges into energetic Aries, emphasizing your 4th House of Foundations. An aggressive attitude toward home-improvement lends itself to quick execution of your undertakings, but balancing your budget requires more mindful planning and temperament. Little changes act as stepping stones toward a larger transformation.

Aquarius
January 20-February 18
After juggling a hectic schedule, it's time to downshift and enjoy some peace and quiet. However, your thoughts begin to race as resourceful Venus strides into your 3rd House of Mind, and soon you're itching to tell your new ideas to anyone who will listen. Intense Pluto joins the conversation, warning that your fervency could be an overcompensation stemming from a complex inner dynamic. Peter Marshall said, "Small deeds done are better than great deeds planned."

Pisces
February 19-March 20
The frenetic pace is settling down and you're proud of yourself for taking the busy week in stride. Your confidence is bolstered by beautiful Venus as she enters assertive Aries today, accentuating your 2nd House of Self-Worth. Doubts fade into the past as it becomes easier to pursue the things you want. However self-assured you feel now, be sure to make the best choice, not just the bold choice. Forgotten details could compromise your plans if you don't take the time to thoroughly think things through before forging ahead. Don't let haste make waste when the stars are on your side.
