Miss Pearl's Country Cookin'

Bean & Bacon Soup

original recipe makes 6-8 servings

1 pound dry Great Northern white beans, covered with a couple inches of water and soaked overnight
5 ounces of bacon, cut into 1/2-inch wide pieces
2 cups chopped onion
3/4 cup chopped celery
3/4 cup chopped carrots
3 cloves garlic, minced (about 1 tablespoon)
6 cups chicken stock
2 bay leaves
1 Tbsp fresh thyme
2 1/2 teaspoons kosher salt
1/4 teaspoon black pepper
3 Tbsp tomato paste
1/2 teaspoon paprika
1 ounce bacon (1 to 2 slices), cooked and crumbled for garnish (optional)
2 Tbsp chopped fresh parsley for garnish (optional)

Drain the beans that have been soaking in water. (If you haven't already soaked the beans, and you don't have time to do so overnight, you can put them in a large pot of water, bring to a boil, remove from heat and let sit for an hour, then drain.) Put the bacon into a large (5 to 6 quart) thick-bottomed Dutch oven on medium high heat. Let the bacon cook for a minute or two to start rendering out some of its fat, then add the chopped onion, celery, and carrots. Lower the heat to low, cover and cook for 12 to 15 minutes, until vegetables are completely cooked through and softened. Add the garlic and cook a minute more. 3 Add the drained beans to the pot. Add the stock, the bay leaves, thyme, salt and pepper. Increase heat to high to bring to a simmer, then lower the heat to maintain a simmer, partially covered, for 1 hour or until the beans are very soft. Stir in the tomato paste and the paprika. Cook for 5 more minutes. Using an immersion blender, purée most of the soup. You don't want the soup to be perfectly smooth, but you want to purée enough of it so that the beans create a creamy base. Add more salt and pepper to taste. Garnish with crumbled cooked bacon and chopped parsley.

Caramel Apples

original recipe makes 6 apples

1 cup white granulated sugar
1/2 cup (1 stick) unsalted butter
3/4 cup heavy whipping cream
1/2 cup dark corn syrup
1 Tbsp dark molasses
1 teaspoon vanilla extract
1/2 teaspoon salt (omit if using salted butter)
6 sturdy lollipop sticks or chopsticks
6 medium apples (rinsed and patted dry, room temperature)
Assorted decorations (such as chopped nuts, chopped raisins, M&M's & candy sprinkles)
Equipment needed—one accurate candy thermometer.
Place sugar, butter, cream, corn syrup, molasses, vanilla, and salt (omit if using salted butter) in a thick-bottomed 3-4 quart saucepan. Heat on medium to medium low heat and stir slowly with a wooden spoon until the butter has melted and the sugar has dissolved. Let the caramel mixture come to a rolling boil, adjusting the heat so that the caramel doesn't boil over the pan. Continue to stir in a slow figure-eight pattern with a wooden spoon. Monitor the temperature of the caramel with a candy thermometer. When the temperature of the mixture reaches 240°F (after about 15 minutes or so), remove from heat and pour into a metal bowl. Let the hot caramel mixture sit in the bowl until the temperature cools to just below 200°F. While the caramel sauce is cooking and cooling, line a baking sheet with either Silpat or buttered aluminum foil. Insert the sticks (either lollipop sticks, thick wooden skewers, or chopsticks) into the center of the apples through the stem end. When the caramel sauce has cooled sufficiently, working one at a time, dip the apples into the sauce. Swirl each apple around in the sauce so that the caramel sauce completely coats the apple, except for the very top near the stick. Pull the apple up from the sauce and let the excess caramel gently drip back into the bowl. Place the coated apple onto the lined baking sheet. Some caramel sauce will form a little pool at the base of each apple. Refrigerate for 15 minutes. Once the caramel has chilled a few minutes, remove from the refrigerator and press the caramel that has pooled at the bottom of the apples up against the side of the apples. If you are using coatings such as sprinkles or chopped nuts, roll the caramel apples in them now. Then return the apples to the refrigerator and chill for at least another hour.

Carmelized Onion Dip

makes 2 1/2 cups of dip

2 Tbsp olive oil
4 cups chopped yellow onions
1 teaspoon brown sugar
2 Tbsp balsamic vinegar
1/2 teaspoon kosher salt
1/2 teaspoon black pepper
1 cup sour cream
1/2 cup mayonnaise
1/4 teaspoon Worcestershire sauce
1/4 teaspoon garlic powder
Heat olive oil in a large, thick-bottomed deep pot on medium high heat. Add the

chopped onions and cook until translucent and starting to color, about 10 minutes. If at any point during the cooking of the onions they start to dry out, add a tablespoon of water to the pot. Stir in the brown sugar, balsamic, salt, and pepper. Lower the heat and cook gently, uncovered, for about

25 to 30 minutes, stirring occasionally, until the onions are nicely caramelized. Then set aside. Let cool a bit before adding to the other ingredients. In a medium bowl, mix together the sour cream and mayonnaise. Stir in the caramelized onions. Sprinkle with garlic salt and stir to incorpo-

rate. Stir in the Worcestershire sauce. Chill until ready to serve. Serve with potato chips.

Your Weekly Love Horoscope

Aries
March 21-April 19

No matter what you hope to do today, work-related tasks demand your undivided attention until the job is complete. This ambitious commitment may sound like bad news, but doing your chores could turn out to be a pleasant experience if you don't put up a fight. Keep your eye on the final goal, regardless of whatever delightful distractions pop up. Just think of it as an endurance test from the universe. If you stay focused on the finish line, you'll cross it with flying colors. Rewards are sweeter when you sweat for them.

Taurus
April 20-May 20

Whatever concerns surface today may not be as daunting as they seem at first. Ultimately, the current pressure is not great enough to prompt a significant life change, but you still might have to jump through a few hoops to move things along. Thankfully, once you get the ball rolling, progress becomes easier as the day wears on. Surprisingly, you could even have time for a playful diversion. Keep your productivity on target by avoiding extreme reactions. Balancing your energy maximizes your potential.

Gemini
May 21-June 20

Even if your thoughts are running amok now, this is a perfect chance to set clear priorities and consciously focus on what's most important. Your emotions may be entangled with those of close family members, but something unexpected could pull you away from your plans at home today. Although responsibilities are calling from all directions, you can still reconnect with the ones you love later on in the evening. There's nothing wrong with admitting that home is where your heart is happiest.

Cancer
June 21-July 22

There is so much going on at work that it is nearly impossible to reestablish balance to your daily routine. Fortunately, you can feel a subtle but significant shift in the energy today. Even if you don't yet fully understand where the current trajectory is heading, at least recognize that you can't tie yourself to the status quo any longer. Don't be too calculating as you plan your future or you'll end up outsmarting yourself. Follow the flow; your life is changing and you need to change with it.

Leo
July 23-August 22

You might be worrying about your long-term financial condition for not-so-obvious reasons. Although your mind is on your money today, chances are that your current anxiety is a reflection of a deeper concern you are harboring about your life goals. Thankfully, a little self-examination will set the record straight. What do you consider valuable? Where do you see yourself in five years? What's on your bucket list? The more you envision the future now, the more you realize how much work there is to do in the present moment.

Virgo
August 23-September 22

Relationships are the source of confusion today if you impulsively act on your feelings. You might be suddenly confronted with the fact that everyone doesn't necessarily share the same level of interest as you. Don't push for resolution to prove a point; solutions may remain elusive for a while longer. Take as much time as you need to listen to the whispers of your heart and decipher the clues in your dreams. Don't grow complacent; be ready to run with your answer when you find it.

Libra
September 23-October 22

Turning your brilliant ideas into action is tricky now, but it's not because anyone wants to see you fail. Instead, it's your own indecisiveness that stymies your progress. Although you may have on-going issues about making timely decisions, this is one choice you're actually better off postponing today because you don't have the objective perspective you need. Give it a few days and then make up your mind. It might look like procrastination to the rest of the world, but you know it's all about strategic timing.

Scorpio
October 23-November 21

Fight the impulse to be overly vague when you ask for what you need today. Even if the stars don't grant your every wish, you can still end up closer to getting what you want. Exploring the possibility that you're missing something crucial to the big picture inspires you to dig deeper. Look within and you can transform uncertainty into specificity but you won't find your answers immediately. In the meantime, your willingness to be truly authentic with those you love is appreciated more than you know.

Sagittarius
November 22-December 21

Your naturally cheerful disposition normally opens doors for you, but your exuberance could work against you today. It's unrealistic to expect others to take you seriously when you're busy breaking out the party favors and cracking jokes. It's wonderful to play the master of ceremonies whenever possible, but now you can't leave the practical matters behind until they are fully addressed. Surprise everyone with your willingness to work hard, and then dazzle them with your brilliance.

Capricorn
December 22-January 19

Your attention to detail is admirable today, but you could grow so obsessed with gathering more facts that you lose track of your original goal. You might believe that possessing the right piece of information now can empower you to overcome nearly any obstacle. However, you may be sorely disappointed if you become so fascinated with the pixels that you no longer see the big picture. Change your perspective by taking a few steps back and then boldly recreate your vision of the future from your new vantage point.

Aquarius
January 20-February 18

Although everything might seem a little off center today, you remain hopeful that the tension will dissipate on its own. There's not quite enough conflict for you to initiate any major changes in your life now. But there is just the right amount of free-floating anxiety to encourage you to assume a self-protective posture. Don't let down your guard or you could court disaster. Thankfully, your clever ability of staying one step ahead of everyone else will surely pay off in the days ahead.

Pisces
February 19-March 20

Struggling with the fine distinctions between fact and fiction takes up most of your energy today. Even with your natural proclivity toward fantasy, you can usually tell what's real when push comes to shove. However, it's nearly impossible to know what to trust now. Dream big while delaying major decisions for a few more days. Although your judgment may be temporarily clouded, your imagination is more vivid than ever. Keep dipping into the deep waters since that's where the buried treasure is hidden.
