DUN-FOUND-IT GAME FOR NOVEMBER 17, 2016

 Name: _____ Phone: _____

Grilled Sweet Potatoes with Apples
original recipe makes 4 servings
2 large sweet potatoes, sliced
1 apple - peeled, cored and thinly sliced
ground cinnamon to taste
white sugar to taste
1/2 cup butter
Preheat an outdoor grill. In a bowl, toss the sweet potato and apple slices with the cinnamon and sugar. Divide the mixture into 4 portions, places each on a large piece of aluminum foil.
Top each with an equal amount of butter. Tightly seal foil around each portion. Place foil packets on the grill, and cook 40 minutes, turning every 5 to 10 minutes, until potatoes and apples are tender.

BBQ Chicken Calzone
Original recipe makes 4 servings
4 slices bacon
1/2 small onion, chopped
3 cups shredded, cooked chicken breast
2/3 cup barbeque sauce
1 (10 oz) can refrigerated pizza crust dough
1 cup shredded mozzarella cheese
Preheat the oven to 400 degrees F. Fry bacon in a large skillet over medium-high heat until crisp. Remove from the pan to drain on paper towels; crumble. Add the onion and shredded chicken to the hot bacon grease in the pan. Fry over medium heat until onion is tender. Stir in 1/3 cup of barbeque sauce, and remove from the heat. Mix in the cooked bacon. Roll the pizza crust dough out onto a greased cookie sheet. Press out to an even thickness, and then cut in half. Divide the chicken mixture between the two pieces of dough, spreading on only half of each piece to within 1/2 inch of the edge. Drizzle the remaining sauce over the filling. Sprinkle the cheese and cilantro over the top. Fold the uncovered portion of dough over the filling, and press the edges together with a fork to seal. Bake for 25 minutes in the preheated oven, or until browned to your liking. Cool for a few minutes, then cut each calzone in half. Each serving is half of a calzone.

Churros
original recipe makes 4 servings
1 cup water
2 1/2 tablespoons white sugar
1/2 teaspoon salt
2 tablespoons vegetable oil
1 cup all-purpose flour
2 quarts oil for frying
1/2 cup white sugar, or to taste
In a small saucepan over medium heat, combine water, 2 1/2 tablespoons sugar, salt and 2 tablespoons vegetable oil. Bring to a boil and remove from heat. Stir in flour until mixture forms a ball. Heat oil for frying in deep-fryer or deep skillet to 375 degrees F. Pipe strips of dough into hot oil using a pastry bag. Fry until golden; drain on paper towels. Combine 1/2 cup sugar and cinnamon. Roll drained churros in cinnamon and sugar mixture.

Cheesecake Stuffed Strawberries
original recipe makes 1 pint of strawberries
1 (8 oz) package cream cheese, softened
1/2 cup confectioners' sugar
1/2 teaspoon vanilla extract
1 pint fresh strawberries, hulled and cored
Beat cream cheese, confectioners' sugar, and vanilla extract together in a bowl until smooth; spoon into a piping bag or a resealable bag with a corner snipped. Fill cavities of cored strawberries with the cream cheese mixture. Dip filled side of strawberries in the crushed graham crackers to coat.

Your Weekly Love Horoscope

Aries
March 21-April 19

It's one thing to dream about jumping on an airplane for a quick weekend get-away, but it's something quite different to actually do it. Although plotting this type of escape might be a fun pastime, you'll likely think about it in a more practical manner later in the day. Nevertheless, impulsively buying tickets -- or doing anything irresponsible -- is probably not a great idea at this time. Enjoy getting lost in the fantasy but see how you feel about it in a few days to avoid the consequences of buyer's remorse.

Taurus
April 20-May 20

You have mixed emotions about revealing your innermost secrets today -- even to people you trust. But you're not as worried about someone else's reactions to your disclosure as you are about your next move. You don't know if you're ready to follow through on your intentions now, but you realize that you won't be able to take back what you say. Tread carefully while continuing to consider your options. However, in the end, you're less likely to regret the things you've done than the things you didn't do when you had the chance. Tony Robbins says, "It is in your moments of decision that your destiny is shaped."

Gemini
May 21-June 20

Your cerebral antennae are fully extended today as you scan your environment for something new and exciting to fill your day. Unfortunately, your calendar might already be so overloaded that there's no time for extracurricular pursuits. Nevertheless, your restlessness may be so acute that you're willing to deal with an awkward situation later in order to satisfy your boredom now. Thoreau wrote, "Success usually comes to those who are too busy to be looking for it."

Cancer
June 21-July 22

Maintaining a consistent outlook on life is tricky today because one moment you think you can do anything you set your mind to and a few minutes later you believe you'll fail at even the simplest task. Obviously, neither of these two extremes are true. Instead of allowing your confidence to ebb and flow with arbitrary emotional tides, take control of your day by establishing realistic goals and striving to achieve them. However, the fastest way to build self-esteem is to do exactly what you're afraid of doing. Fear looks, faith jumps.

Leo
July 23-August 22

You're the go-to person that everyone likes now because they think you have all the answers. However, you're less interested in finding the solution to someone else's problems than you are in escaping your own. Although you know that you can't avoid your obligations forever, you're still eager to test the limits if you can find others to join you in your little adventure. Keep in mind the words of Winston Churchill, "The price of greatness is responsibility."

Virgo
August 23-September 22

An unresolved family issue lurking in the shadows of your consciousness might suddenly explode into a full-blown melo-drama today. Although it shouldn't be a surprise, it's still shocking when you realize the complexity of the situation. You can see many possible scenarios as you contemplate the various ways in which the current events could unfold. Naturally, you want to take everyone under your wing and save them from drowning in bad choices. Nevertheless, adopting a more detached approach enables you to be the calm in the center of the storm while empowering others to make their own decisions.

Libra
September 23-October 22

Blaming someone else for your current anxiety isn't the healthiest way to deal with your fears. Granted, irresponsible behavior can be quite upsetting if you assume that everyone will do exactly as promised. Unfortunately, you are likely to be let down today when reality doesn't match your expectations. However, other people are just triggers, reminding you of painful memories from long ago. There is no reason to give your power away needlessly. Stop cheating on your future with your past.

Scorpio
October 23-November 21

Concentrating on your work is challenging when there are so many other things that seem more interesting in the moment. Although exploring the complexity of human emotions in a relationship is fuel for your soul, there are pressing mundane issues that are currently fighting for your attention. Thankfully, you possess the power to aim your thoughts in any direction you choose. J.P. Morgan wrote, "The first step toward getting somewhere is to decide that you are not going to stay where you are."

Sagittarius
November 22-December 21

You are excited about the potential you see in nearly everything that happens today. People around you are extremely talkative and you're intrigued by what you hear. Nevertheless, you have more ideas than you know what to do with now; however, your inspiration could easily be drowned out by the intellectual noise of your interactions. Consciously limiting your social interactions is the best thing you can do to increase your current productivity. Stephen Covey reminds us that we're not the product of our circumstances; we're the products of our decisions.

Capricorn
December 22-January 19

You prefer to start on one task and stick to it until every last detail is complete. However, you won't likely have that luxury today with so many different activities vying for your time. Although you might try to simplify your schedule, there isn't very much wiggle room on your calendar. Instead of wasting resources attempting the improbable, surrender to the complexity of the day with a smile. After all, the difference between success and failure is your attitude.

Aquarius
January 20-February 18

You are eager to hang out with your colleagues in a social setting today, even if it means that you're a little less productive than you planned. It's not that you're avoiding work; you're simply reevaluating your life in a context larger than your job. Relying on friends to give you honest feedback is an important part of your current thinking process as you explore a variety of possible plans that can take you in very different directions. Remain neutral for now; Thomas Jefferson said, "Delay is preferable to error."

Pisces
February 19-March 20

You might expend quite a bit of energy defending your professional goals today because you actually believe them to be achievable. However, even your most sensible idea becomes unrealistic once it's over-inflated. It's tempting to take a simple plan and make it so complicated that you could not possibly execute it. Unfortunately, figuring it out as you go along isn't a wise strategy, either. Take a step back, clear your mind, and refresh your perspective before moving forward.
