# Your Weekly Love Horoscope

  
**Aries**  
**March 21-April 19**

You might feel like you're floating in an imaginative bubble and time is standing still. However, your inflated balloon could pop today when the Pisces Solar Eclipse rattles your 12th House of Escapism. You already realize big changes are looming on the horizon, but their arrival is accelerated now. You must meet your current obligations while you still have the chance. Once you tie up loose ends, you will be free to move into the next phase of your life. The clock is ticking and the future waits for no one.

  
**Taurus**  
**April 20-May 20**

You can be so overwhelmed by your imagination today that your associates may think you've lost touch with reality. But the Pisces New Moon Eclipse energizes your 11th House of Networking, stimulating your need to be with like-minded people. Your friends and coworkers will take you more seriously if you don't ramble on endlessly about your visions. Share your hopes, but stop talking once you've said what's on your mind. Daydreaming is a luxury but living in the real world is required.

  
**Gemini**  
**May 21-June 20**

Managing all the uncertainty at work might be a challenge today, but don't just throw your hands up in frustration and walk away. Although the Pisces Solar Eclipse confuses your 10th House of Career, you can rely on your intuition to find an opportunity in the fog. Paradoxically, the facts will only lead you astray because the rules of the game are likely to change. Shift gears as necessary or take an entirely new approach if your current methods no longer do the trick. Straight lines are not always the shortest distance to your destination.

  
**Cancer**  
**June 21-July 22**

You could be obsessing about the idea of an exotic vacation, and it would be a shame to waste the current opportunity without attempting to realize your fantasy. At this point it doesn't matter whether you can afford to take time off from work or if the costs are beyond your budget. The Pisces New Moon Eclipse electrifies your 9th House of Vision; it is essential for your heart's happiness to try to make your dreams come true. A preliminary exploration won't require additional resources, and you can always wrangle with the logistics later if you decide to actually embark on your escapade.

  
**Leo**  
**July 23-August 22**

You appear so self-sufficient most of the time that it's difficult to get help when you need it. Your coworkers might be hesitant to offer assistance while constraining Saturn squares the Pisces Solar Eclipse occurring in your 8th House of Shared Resources. Although you would appreciate some support today, you don't like the idea of anyone thinking that you're desperate. Thankfully, it's not too late; ask for what you want, even if you must reveal your vulnerability. You don't have to be a model of perfection because people will rally to your defense if you're willing to meet them halfway.

  
**Virgo**  
**August 23-September 22**

Everyone seems a lot less reliable today as the Pisces Solar Eclipse fogs your 7th House of Partners. You expect one thing to occur, but something else appears out of left field. You could become anxious if you're too rigid in your approach to the day. Being less self-critical now also enables you to relax your judgment of others. Developing a flexible attitude is a smart strategy to get you through these uncertain times. As George Bernard Shaw wrote, "Those who cannot change their minds cannot change anything."

  
**Libra**  
**September 23-October 22**

A healthier diet and a more disciplined exercise plan usually sounds like a sensible idea, but you might lack the commitment necessary to make it work. Nevertheless, the imaginative Pisces New Moon Eclipse activates your 6th House of Habits, motivating you to begin a new regimen to improve your well-being. Fortunately, your sincere intentions empower you to start a new routine that has a lasting positive impact. Making an enduring little change now is better than a big one that doesn't last.

  
**Scorpio**  
**October 23-November 21**

A romantic fantasy may be exactly what the doctor orders today, even if you don't actually say a word about it for the sake of propriety. The magical Pisces Solar Eclipse flows through your 5th House of Love and Creativity, potentially inspiring a wonderful experience. Don't be concerned if the pleasure takes place only within your imagination since it still can have real implications if you choose to act on your feelings now or later on. Whether or not you tell anyone your secrets, acknowledge your current attractions without worrying about where they could lead.

  
**Sagittarius**  
**November 22-December 21**

You are wise to keep your feelings to yourself today as the disorienting Pisces New Moon Eclipse electrifies your 4th House of Roots. Even if you must head out into the world, your emotions are best left at home now. Sharing your private life at work might not be your smartest move if you want to be taken seriously. But don't slip into denial by shutting yourself off from your heart. Writing in a journal or talking about your personal issues with a trusted confidant is the safest bet. Discretion is your friend.

  
**Capricorn**  
**December 22-January 19**

A close friend or associate might do something that is totally out of character today, but don't let someone else's behavior become the main focus of your day. Although the Pisces Solar Eclipse unsettles your 3rd House of Communication, you have your own agenda to follow and can't waste time untangling other people's motives. If you're compulsively curious, be direct and ask them what's going on. However, if satisfactory answers aren't readily forthcoming, let it go for now; you can always return to the conundrum when time is not an issue.

  
**Aquarius**  
**January 20-February 18**

Your visionary ideas tempt you with many ways to increase your income as the dreamy Pisces Solar Eclipse enlightens your 2nd House of Personal Resources. But financial planning won't necessarily lead to fiscal rewards because you might be misled by your own idealism now. Be smart and consider every inspiration that comes to mind, but don't put all your eggs in one basket. Your current key to success is keeping each dream alive until a reality check requires you to leave it in the past.

  
**Pisces**  
**February 19-March 20**

There is no limit to what you can imagine now, but there's also nothing to be gained by rushing into anything monumental just yet. The New Moon Eclipse polarizes your creative sign today, offering you a new lease on life. You're at the edge of a spiritual journey, but your diaphanous thoughts will eventually solidify into reality. Don't fall victim to a false sense of urgency; move cautiously and consider all your options prior to focusing on any one path. Henry David Thoreau wrote, "The world is but a canvas to the imagination."
