"THE SELLING MACHINE"

Your Weekly Love Horoscope

Aries
March 21-April 19

You're certain you're in the right, but there's more to the story outside your field of vision. You don't care for tact today as you fall back on the most tried and true method known to you by speaking your piece without considering the consequences. Contentious exchanges seem unavoidable when the provocative Moon in your sign joins rebellious Uranus and competitive Mars, driving you to push for the win in any argument. Avoid spending someone else's feelings as currency to buy your victory. Holding your tongue now prevents saying things you'll regret when new information comes to light.

Taurus
April 20-May 20

All you need is time, but that's the one thing you seem to lack today. Your long-term goals appear blurry and you can't make out defined shapes no matter how much you squint. The noble Sun and nebulous Neptune conjoin in your 11th House of Hopes and Wishes, awakening a longing for clarity. Although you want to reestablish stability as soon as possible, it's better to let yourself sit with the uncertainty until the fog lifts. Contending with metaphysical concepts is more exhausting than you expect. Socrates wrote, "The only true wisdom is knowing that you know nothing."

Gemini
May 21-June 20

Starting slow to finish strong is a paradox than might not even cross your mind today. It seems as if you can just articulate yourself a little better, your friends and colleagues will understand just what you mean. Although you're driven to tell them your grand plan at a mile a minute, taking them on a crash course through your mind may backfire and do the opposite of what you intend. You can cover more ground when you speak less, so try moderating your pace to a comfortable trot rather than a verbal sprint. Taste your words before you spit them out.

Cancer
June 21-July 22

You want to believe in something, but you're not sure where to put your faith. It's uncomfortable to feel like a safe haven is out of reach today and all you have to depend on is your own defenses. Fortunately, you have more support than you think as the brave Aries Moon joins ardent Mars in your 10th House of Reputation. Harnessing this fire gives you the courage to stand up for yourself. Remain strong in the face of doubt, but don't be too quick to judge anyone's character. Theodore Roosevelt said, "Comparison is the thief of joy."

Leo
July 23-August 22

You're ready to journey far and wide for answers yet it seems like anyone who challenges your approach is just trying to bring you down. However, if your conclusions appear deceptively simple, they probably are. A mystical Sun-Neptune conjunction in your 8th House of Transformation is like a cosmic fog machine, clouding your vision and dissolving your identity. Although the journey has more curves and bends than the straight shot you prefer, the truth is that you must look inside for what you seek. Neale Donald Walsch wrote, "Life begins at the end of your comfort zone."

Virgo
August 23-September 22

Bickering may be inevitable when you can't figure out what someone wants from you. However, blurred lines between give and take could be a reflection of your own uncertainty when it comes to what you expect from a close friend or lover. Instead of focusing on your differences, take time to think about the ideals you share. Reserve decision-making until clarity returns for the sake of harmony. Find common ground by moving to higher ground.

Libra
September 23-October 22

Maintaining the peace requires extra effort today and you must constantly try to keep your balance. What begins as an impassioned dialogue can tip to a total free-for-all in the space of a moment. The blatant Aries Moon squares off with exaggerating Jupiter, leading you to believe that your opinion is obviously the right one. Unfortunately, matters aren't as simple as they seem. Thankfully, this wild ride will come to an end and it's better to resist taking the bait in the heat of the moment. Shakespeare wrote, "Discretion is the better part of valor."

Scorpio
October 23-November 21

Although you're striving for transparency, the day is riddled with misunderstandings that baffle and perplex. You may not be coming across as clearly as you think now that the mighty Sun is joined with illusory Neptune in your 5th House of Self-Expression. You're more likely to create a beautiful work of art than lay out a business plan today. Instead of lashing out when you can't make your point, reel in your frustration and channel it into something creative when you have the chance. Energy flows where attention goes.

Sagittarius
November 22-December 21

A situation at home may be so confusing today that you try to make sense of it by being even more direct in your inquiries. Unfortunately, emotional problems aren't likely to be resolved by sheer force, and you might end up pushing people's buttons instead. You're likely too close to the situation to see it objectively right now, making a drive for resolution a waste of energy for everyone. Instead of trying to prove your point to an unreceptive audience, use your frustration to fuel a creative endeavor of your own. If it doesn't open, it's not your door.

Capricorn
December 22-January 19

You're gritting your teeth and trying to keep your eye on the task at hand but your mind is fuzzier than ever. You may believe that your efficiency will return if you push yourself harder, but the amorphous Sun-Neptune conjunction in your 3rd House of Communication grants no one exemption from its surreal influence. True productivity comes from using the tools you have now rather than wishing you had different ones. Making the best of the present moment empowers you to make the most yourself.

Aquarius
January 20-February 18

Your witty remarks may carry more sting than you realize today. Your goal isn't to provoke, but unless you take great care to mind your acerbic tone, you could find yourself in more spats than you bargained for. The brash Aries Moon is out picking fights with unpredictable Uranus and plucky Mars, tapping you in for round after round. Anything you can do to cool your head will be beneficial until the cosmic heat wave passes. The Dalai Lama teaches, "Be kind whenever possible. It is always possible."

Pisces
February 19-March 20

A misty sheen coats the world today, making the ordinary magical and the facts slippery. You feel like you're on a different wavelength than everyone else, thanks to the annual meeting of the glorious Sun and otherworldly Neptune in your sign. Your acute sensitivity may make insignificant lifts seem more upsetting than usual, so try not to take them too personally. It matters less that people relate to how you feel, and more that you experience the moment without resistance. Lao Tzu wrote, "Those who flow as life flows know they need no other force."
