1 teaspoon hot pepper sauce  
Cut meat into strips no thicker than 1/4 inch. In a large bowl, mix together onion powder, pepper, garlic powder, salt and Italian seasoning. Stir in Worcestershire sauce, soy sauce and pepper sauce.

Place meat into a container, and combine with marinade. Cover, and refrigerate 24 hours. Place oven rack on the highest level. Place aluminum foil on bottom of oven to catch drips. Preheat oven to 150 degrees F. Insert round toothpicks through the tops of the strips of meat, and hang them from the oven rack. Bake in preheated oven for 4 hours, or until dried to desired consistency.

1/3 cup Dijon mustard  
1/4 cup honey  
2 tablespoons mayonnaise  
1 teaspoon steak sauce  
4 skinless, boneless chicken breast halves

Preheat the grill for medium heat. In a shallow bowl, mix the mustard, honey, mayonnaise, and steak sauce. Set aside a small amount of the honey mustard sauce for basting, and dip the chicken into the remaining sauce to coat. Lightly oil the grill grate. Grill chicken over indirect heat for 18 to 20 minutes, turning occasionally, or until juices run clear. Baste occasionally with the reserved sauce during the last 10 minutes.

## Your Weekly Love Horoscope

**Aries**  
March 21-April 19

The workweek ahead appears to be turning into a stew that gets better and better as it simmers. The Sun and Mercury's visit to your sign inspires you to be at the very top of your game over the next several weeks. The energetic buzz is heating up your imagination, even if the weather is still cool. You can visualize the myriad of possibilities that stretch out in front of you. If the current situation isn't exactly your cup of tea, be courageous and take a few bold steps in the direction of your dreams.

**Taurus**  
April 20-May 20

A significant project is drawing to an end, yet this isn't necessarily bad news. Perhaps you were working as part of a team on a major initiative that is finally coming to completion. However, you could be tempted to dig in your heels and hold onto the recent past, especially if you have grown to enjoy the sense of camaraderie. No matter what, you can still share common goals and cultivate a support network; but don't be afraid of heading off to a destination that is more aligned with your own individual needs.

**Gemini**  
May 21-June 20

Your career objectives are undergoing a metamorphosis and you must change with the times. You were quite involved recently with your profession or your community, but your drive for success is currently being replaced with a stronger emphasis on family matters and personal dreams. Wrap up loose ends on the job so you can have time to reestablish significant friendships that have fallen to the wayside. Share your hopes for the future with those you trust and bask in the loving support showered upon you.

**Cancer**  
June 21-July 22

You might be coerced to directly face an old fear of moving into the future, or memories of the past could hold you back for unknown reasons. Either way, dynamics at work are changing quickly now and you can shift gears with ease when the timing is right. You know what you need to do, so summon up enough courage to ride these emotional tides with awareness and intention, instead of being pulled under by self-doubt. Nothing will stop your pursuit of success if only you believe in yourself.

**Leo**  
July 23-August 22

You may assume you're in a very delicate position now because your heightened sense of vulnerability tosses you one way or another. You could subconsciously react to the current pressures by protecting yourself and hiding your softer side. Unfortunately, this classical defense mechanism only isolates you from loved ones and might even push your closest allies away. On the other hand, you can set the stage for real intimacy by opening up your heart, even if it hurts. The choice is all yours, whether you realize it or not.

**Virgo**  
August 23-September 22

It's apparent that you're on the edge of something entirely new today, yet it's too early in the game to see how everything is going to fall into place. Instead of being frightened by the intensity of your emotions, you're intrigued by all the possibilities and thrilled to explore new territory now. Although you excel at knowing how to apply your analytical skills, you may also be required to trust your intuition. Logic is a masterful tool, but it might not be sufficient to get you through these illogical times.

**Libra**  
September 23-October 22

Managing relationship dynamics is an ongoing dance for most socially adept Libras. The action-packed visit of the Sun and interactive Mercury to your 7th House of Partners radiates additional warmth onto nearly everyone in your life. Although you may feel as if your emotional ground is shaky, honest communication can help you regain stability. Luckily, you won't be forced to bring up new topics for discussion today; instead, revisit a recent conversation with an open mind and a forgiving heart.

**Scorpio**  
October 23-November 21

The details of your life are brought into sharp focus today as the radiant Sun and messenger Mercury shift into your 6th House of Daily Routine. Unfortunately, this dance of tiny steps could be problematic if others find your desire to fine tune reality a bit too obsessive. Remember, there are multiple ways to look at nearly every situation, even if you feel sure about your current perspective. There's no harm in listening to different opinions before making up your mind.

**Sagittarius**  
November 22-December 21

It's not that easy to get your plans off the ground today, even if you're on a creative roll. Although mental Mercury and the willful Sun are traveling through your 5th House of Self-Expression, they encounter a fair share of resistance now, requiring you to review your ideas and edit your words before speaking them out loud. Paradoxically, your confidence is still running strong. Instead of just giving up, rest assured the outcome will be even better if you're not in a hurry. Perseverance is your friend.

**Capricorn**  
December 22-January 19

You can sense a change in the energetic tide and you want to capitalize on the shift. You're not one to alter your plans on a whim, but you may be quick to head off in a new direction now if you think there's potential to get ahead of the curve. Nevertheless, you aren't interested in temporary distractions or quick fixes; you seek long-term solutions that will stand the test of time. Work methodically to maximize your chances of success.

**Aquarius**  
January 20-February 18

All kinds of activities in your immediate environment are placing a heavy burden of demands on you now. If you feel pressured to respond to a developing situation at home or work today, remember that you can't force events to conform to your personal preferences. However, you can change your reactions to the evolving circumstances. It won't hurt to try a radical strategy, especially if the old one isn't really working anymore. Fortune favors the bold.

**Pisces**  
February 19-March 20

You might think you're ready to make your move today, but you would be wise to wait a few more days before starting anything new. You may know exactly what you want to do, but your plans won't begin to solidify until later in the week. Be prepared to scale back your goals because you'll be more effective if your coworkers applaud your efforts. Adopting a more conservative approach makes it difficult for others to justify withholding their support.
