Miss Pearl's Country Cookin'

Homemade Vanilla Pudding

original recipe makes 5 servings

- 2 cups milk
- 1/2 cup white sugar
- 3 tablespoons cornstarch
- 1/4 teaspoon salt
- 1 teaspoon vanilla extract
- 1 tablespoon butter

In medium saucepan over medium heat, heat milk until bubbles form at edges. In a bowl, combine sugar, cornstarch and salt. Pour into hot milk, a little at a time, stirring to dissolve. Continue to cook and stir until mixture thickens enough to coat the back of a metal spoon. Do not boil. Remove from heat, stir in vanilla and butter. Pour into serving dishes. Chill before serving.

Chicken Spaghetti

original recipe makes 6 servings

- 1 (12 oz) package angel hair pasta
- 1 (10 oz) can diced tomatoes with green chile peppers
- 1 (10.75 oz) can condensed cream of chicken soup
- 3/4 (8 oz) package processed cheese, cubed
- 2 cups chopped cooked chicken breast
- 1/2 (4 oz) jar sliced mushrooms, drained
- salt and pepper to taste

Bring a large pot of lightly salted water to a boil. Add pasta and cook for 8 to 10 minutes or until al dente; drain and return to pot. To the pasta add the diced tomatoes with green chile peppers, cream of chicken soup, processed cheese, chopped chicken, mushrooms, salt and pepper. Cook and stir over low heat until cheese is melted and mixture is heated through.

Mozzarella Puffs

original recipe makes 10 biscuits

- 1 (7.5 oz) package refrigerated buttermilk biscuit dough
- 1 teaspoon dried oregano
- 3 ounces mozzarella cheese, cut into 3/4 inch cubes
- 2 tablespoons pizza sauce

Preheat oven to 375 degrees F. Make an indentation in the top of each uncooked biscuit. Fill indentations with oregano and a mozzarella cube. Pinch the dough around the mozzarella cubes. Place the biscuits, pinched side down, on a medium, ungreased baking sheet. Cover with pizza sauce. Bake in the preheated oven 10 to 12 minutes, or until golden brown.

Sweet Dinner Rolls

Original recipe makes 16 rolls

- 1/2 cup warm water (110 degrees F)
- 1/2 cup warm milk
- 1 egg
- 1/3 cup butter, softened
- 1/3 cup white sugar
- 1 teaspoon salt
- 3 3/4 cups all-purpose flour
- 1 (.25 oz) package active dry yeast
- 1/4 cup butter, softened

Place water, milk, egg, 1/3 cup butter, sugar, salt, flour and yeast in the pan of the bread machine in the order recommended by the manufacturer. Select Dough/Knead and First Rise Cycle; press Start. When cycle finishes, turn dough out onto a lightly floured surface. Divide dough in half. Roll each half into a 12 inch circle, spread 1/4 cup softened butter over entire round. Cut each circle into 8 wedges. Roll wedges starting at wide end; roll gently but tightly. Place point side down on ungreased cookie sheet. Cover with clean kitchen towel and put in a warm place, let rise 1 hour. Meanwhile, preheat oven to 400 degrees F. Bake in preheated oven for 10 to 15 minutes, until golden.

Your Weekly Love Horoscope

Aries
March 21-April 19

An overly self-critical assessment of your current career path could lead you to obsess about a recent situation at work. However, it's helpful to consider your part in creating the drama today. Unwanted responsibilities may land on your plate now, reminding you of what you are sacrificing to maintain the status quo. Suffering in silence isn't your style, so you won't be able to remain quiet for long. Get busy and start applying your efforts in a methodical manner before you lose the chance.

Taurus
April 20-May 20

Although you're standing with both feet solidly planted on the ground, you still believe that nearly anything is possible today. However, you may run into more obstacles than you expect when you stretch your wings. Before your confidence turns into discouragement, remember that the current resistance makes you more determined than ever to accomplish your goals. If you really want to reach the top, hard work and persistence pave your way to success.

Gemini
May 21-June 20

It's mind-boggling to contemplate all the possibilities that are in front of you today, but seem just beyond your grasp. Unfortunately, you can't pursue every opportunity that knocks at your door. But even with the limitations you face now, you still can find your way by narrowing your focus like a laser beam. Set one goal above all the others. Once you prioritize your intentions, your chances for reaching satisfaction greatly improve over the weeks ahead.

Cancer
June 21-July 22

You're unsure of your next move because the normal relationship between cause and effect isn't very apparent now. Your specific actions don't seem to elicit the expected responses, making you hesitant to try again. But even if reality throws you a curve ball today, keeping your faith in the outcome is crucial. Continue to follow your heart no matter what anyone else says; you will likely reach your original goal, whether or not you're challenged by a few twists and turns of fate along your way.

Leo
July 23-August 22

You're a champion at holding your position with an air of confidence, but you might not be as sure of yourself as others think. It's as if your need to be acknowledged for your performance is more important than anything else -- and you could feel disappointed if people don't give you the feedback you want. You may need to adjust your methodology in order to get a job done right. However, there's no reason to sacrifice your values in the process. You don't need others to believe in you when you believe in yourself.

Virgo
August 23-September 22

Your practical approach to life is wholeheartedly supported by those around you. But the cosmic encouragement of the determined Taurus Sun and the ambitious Capricorn Moon won't last, so you better act now while success is likely. Aim for the most tangible results possible because this isn't time for pie-in-the-sky visions. Taking concrete steps allows you to make the most from the current potential. The opportunity for growth is yours for the taking if you are willing to rise to the challenge.

Libra
September 23-October 22

Although there may be too much work to finish in one day, you still are given a wonderful opportunity to play catch up today. Don't panic; tasks have been stacking up gradually, so it could take some time to get to the bottom of your list. Meanwhile, the Moon's visit to your 4th House of Domestic Conditions offers you the support you need to focus on your current responsibilities. There's no reason to pretend you have everything under control. Accepting logistical help from family or friends is less a sign of weakness than of intelligence.

Scorpio
October 23-November 21

Remain open-minded and make allowances for someone else's perspective today, even if you're convinced that you are on the right track. No matter how certain you are about your plan, self-righteous behavior isn't productive to a successful collaboration. Instead of alienating yourself from potential allies by assuming your position is superior, try to see things from a different point of view. The more you actively listen to others, the more they will rally to your cause.

Sagittarius
November 22-December 21

Your energy level is hard to manage now, especially if you recently made promises you can't keep. It's disheartening if your progress isn't as consistent as you wish, but unexpected delays may actually be the universe's way of giving you another opportunity to reconsider your strategy. Aside from streamlining your plans, you can also improve your chances for success by eliminating activities that are extraneous to your current goals. Narrowly focusing your energy requires self-discipline, but the rewards are worth the effort in the end.

Capricorn
December 22-January 19

You might not know how to honor your shifting feelings without threatening the integrity of the preexisting foundations. You seek enduring relationships, but don't want them to deteriorate into mechanically comfortable arrangements. Thankfully, there's no need to sacrifice your security now to reinvigorate a significant partnership. However, you still may be required to take a calculated risk and share your heart's desire to revitalize your emotional connection with someone you love.

Aquarius
January 20-February 18

Serving others can be a meaningful spiritual practice, but sometimes selfless work has its limitations. You may derive considerable benefit by stepping back today and not working quite as hard to please everyone while the Moon is camped out in your 12th House of Privacy. However, favorable lunar aspects minimize your desire to become completely invisible; just strive for a healthy balance. Stay ahead of the curve by taking care of your emotional needs so you have even more to offer others.

Pisces
February 19-March 20

Maintaining a high level of clarity in communication is possible to achieve if you only say what is absolutely necessary now. However, your most imaginative ideas may be lost if you keep your conversations succinct. Don't forget to honor your dreams, even if you want to be pragmatic in social interactions today. Wait until you can share your visions for the future with friends who might not be so judgmental when your thoughts wander. Knowing your audience is essential for your relationship success.
