Historic Atkins Porter Neighborhood Association Yard Sales

There will be yard sales aplenty in the Historic Atkins Porter Neighborhood Saturday, May 13, according to Rachel Terrell, vice-president of the Historic Atkins-Porter Neighborhood Association (HAPNA). The association sponsors the event, which featured more than 20 family sales last year. “Most of the sales will begin at 8:00 am and many will run until at least 1:00 pm, however, some participants may be starting and stopping at different times,” said Terrell. “There will be a map highlighting participants’ addresses on the association’s Facebook page, hard copy maps at sale sites, as well as plenty of signage, according to Terrell. The historic neighborhood lies within the boundaries of Dunlap, Veterans Drive, Tyson Avenue and East Wood Street. Terrell described the group’s

second yard sale as a “fun, annual project that encourages people to come enjoy our shady streets, our cool old homes and our friendly neighbors. There’s plenty of parking on the street in the neighborhood, and if you’re a walker, every sale on the map is a nice walk from the AP Rec Center parking lot. The rain date for the event is Saturday, June 3. For more information on participating, visit the group’s Facebook page or call 731-336-2917. The Historic Atkins-Porter Neighborhood Association is dedicated to preserving the history, integrity, safety and sense of community of the Atkins-Porter neighborhood.

# Your Weekly Love Horoscope

**Aries**  
March 21-April 19

It's time to get to work and put your recent ideas into motion. If you already have a concrete action plan in mind, don't hesitate to execute it today. But be aware that you may need to make substantial modifications to your current strategy as the circumstances continue to change. New information multiplies your options after Mercury turns direct in your sign. Your flexibility will be rewarded, yet the slower you proceed the better, since your goals are more important now than your ideologies.

**Taurus**  
April 20-May 20

It's increasingly difficult to separate the real facts from the fake facts as yesterday's truths become today's fantasies. Nevertheless, talking about your desires opens the door to a wide range of experiences. Thankfully, mischievous Mercury starts to regain lost ground in your 12th House of Spiritual Mystery, encouraging you to uncover hidden aspects of your feelings and to explore your unacknowledged biases. Eleanor Roosevelt said, "It's better to light a candle than to curse the darkness."

**Gemini**  
May 21-June 20

Your social universe may be recovering from a sudden barrage of information that altered the lens through which you view the world. Your unwavering optimism isn't so bright that it blinds you, allowing you to see the possible pitfalls ahead. But don't overcompensate and withdraw from your friends and associates because you're afraid of what might happen now. In fact, you could use a trustworthy ally who is willing to offer you a second opinion today. Consider the potential in the problem rather than the problem with the opportunity.

**Cancer**  
June 21-July 22

Although unresolved tensions have been floating around at work for weeks, you might have an "aha!" moment today when all the pieces suddenly fall into place. But whatever you learn now is likely to be only one part of an unfinished story that's still being told. Avoid jumping to conclusions while new data is still coming in or you may become the victim of inadvertently believing your own fantasies. Author Stieg Larson writes that impulsive actions lead to trouble, "and trouble could have unpleasant consequences."

**Leo**  
July 23-August 22

You might have temporarily shelved big plans for self-improvement, but it's now time to place them front and center. Perhaps you weren't quite ready to make a commitment to a long-term educational goal because you were too busy to begin something new. Maybe a lack of funds required you to delay your enrollment. Thankfully, the waiting game is over. Review your blueprint for the future one more time before creating the structure for the next phase of your life. Danielle LaPorte wrote, "Use your dissatisfaction to start a personal revolution."

**Virgo**  
August 23-September 22

You're not known for your reckless attitude, but you're likely to surprise people now with your out-of-character behavior. Logic may play second fiddle to your emotions while you pursue intense feelings that are usually safely tucked away in the shadows. However, your key planet, Mercury, turns direct in your 8th House of Deep Sharing, encouraging you to listen to your heart. Detached intellectual thinking seems dry and uninteresting while there's juicier and more pressing matters to be uncovered. Israeli model Bar Refaeli said, "Have the passion, take the action and magic will happen."

**Libra**  
September 23-October 22

You might not be able to believe what comes out of people's mouths today. Honestly, it's as if they're not thinking before speaking. Although unpremeditated revelations can create an awkward situation now, it's not as discomforting as being stuck with no one saying anything at all. Thankfully, common sense prevails; it's obviously simpler to modify a thought that has been said than one that hasn't.

**Scorpio**  
October 23-November 21

You're not interested in censoring your sharp wit that's being fueled by your overactive imagination now. It's as if you're standing in the path of a fire hose that is streaming innovative ideas and unprocessed images. It's at once exhilarating and overwhelming, making it a challenge to settle the tension in the emotional landscape. Nevertheless, others have the power to shine their love-lights so brightly that they are catalysts in your current changes. Neale Donald Walsch wrote, "Life begins at the end of your comfort zone."

**Sagittarius**  
November 22-December 21

A major breakthrough in your communication may be showier than productive. Clever Mercury turns direct in your 5th House of Self-Expression, prompting you to speak your truth, even if it's an irrelevant one. Nevertheless, your brilliant repartee won't likely improve on Einstein's "E=mc<sup>2</sup>", nor will you single-handedly resolve the world's hunger problem. You're still one person among eight billion and there's only so much you can do at once. Gandhi said, "Whatever you do will be insignificant, but it is very important that you do it."

**Capricorn**  
December 22-January 19

You're normally quite adept at balancing opposite forces in your life, however they play out. You apply the laws to the known situation and visualize the various outcomes based upon your choices. Nevertheless, you're likely to disengage from personal and professional interactions now so you can focus on your spiritual practice. Your contemplative nature is your saving grace today, for you can explore every possible path while reserving your commitment until you're ready. However, do not confuse the voice of ego with the voice of intuition.

**Aquarius**  
January 20-February 18

You don't understand why everyone else seems so certain about their actions while you're wandering around lost in space. In fact, there's so much busy noise now that you can't even hear yourself think. There's no peace and quiet to be found when loquacious Mercury turns direct in your 3rd House of Endless Chatter. Demonstrate your wisdom by pulling the plug on superfluous conversations and unnecessary interactions today. Silence speaks volumes when words have run their course.

**Pisces**  
February 19-March 20

You have often wondered which personally held beliefs were important enough to be non-negotiable. Perhaps a particular conversation stumbled onto a sensitive topic today, prompting you to reevaluate your priorities. However, you may be more drawn to reconsider your relationship to the material world. Making small changes to how you manage your money might appear inconsequential now, yet could influence your life for weeks to come. Roy Disney wrote, "When your values are clear to you, making decisions becomes easier."
