# What's Happening?

**Murray State Univ. Volleyball Camps** Murray State Volleyball has announced dates for multiple camps this summer that will be held at Racer Arena on the MSU campus. MSU will host a Junior Racer Skills Camp June 11th and 12th for ages 9-13 and it will run from 10am to 4pm both days. Cost for the camp is \$130 per camper and is commuter only. June 13-15 will be the Elite Racer Skills Camp for ages 14-18. Cost is \$190 per camp and goes from 10am to 4pm daily and is commuter only. In July, MSU will host its team camp from the 10th thru the 13th and it is open to all jr. varsity and varsity high school teams. Cost of the camp is \$190 per camper for commuters and \$230 per camper for those staying overnight in the resident halls. Teams must have a minimum of 8 players. Cost of the camp includes meals and a t-shirt. For more information about Murray State Racer Volleyball camps this summer, contact Becca Lamb at 618-520-7291 or at rlamb2@murraystate.edu. More information can be found at the camps h Summer Meals omepage abcsportsamps.com/racervb.

accuracy of results, all participants are encouraged to begin fasting at least 6 hours prior to testing. For questions, contact Lori Stambaugh at 731-644-8269.

**Summer Meals Free for Kids** The U.S. Department of Agriculture has partnered with the Henry County School System and they will be providing FREE MEALS to children during the summer. There are no income requirements and no registration. Anyone age 18 or younger may come eat. The free meals will be served May 29th through July 27th with no meals served on July 4th. This summer, meals will be served at: Henry County High School - Breakfast - 7:30 a.m. - 8:30 a.m.; Lunch - 11:00 a.m. - 12:30 p.m. • 315 South Wilson St., Paris, TN III Church of the Living God - Lunch - 11:15 a.m. - 11:45 a.m. • 116 S Porter St., Paris, TN III Brookfield Apartments - Lunch - 11:30 a.m. - 12:00 p.m. • 430 Harrison Ln, Paris, TN III Tyson Apartments - Lunch - 11:15 a.m. - 11:45 a.m. • 1044 Manley St., Paris, TN III Puryear Methodist Church - Lunch - 12:00 p.m. - 12:30 p.m. • 114 W Chestnut St., Puryear, TN III Cottage Grove Baptist Church- Lunch - 11:45 a.m. - 12:15 p.m. • 6860 Church St, Cottage Grove, TN III Mt Zion Baptist Church - Lunch - 11:25 a.m. - 11:45 a.m. • 401 Irvine St., Paris, TN. tory Camp, history on the move June 4-8 from 9am to 12pm each day for grades 4-8 students. Campers will experience a colorful and hands on look at the history of downtown Paris. Each day the students will meet at 9am at the Heritage Center to start the tour and they can be picked up at Noon at the Heritage Center. McDonald’s will provide snacks. The schedule for the tour is Monday: Courthouse, Tuesday: Paris City Square, Wed.: Downtown Churches; Thurs.: Old Cemetery; and Fri.: Cavitt Place and Poplar St. Registration is ongoing now and space is

limited. Call the Heritage Center at 642-1030 or email winstonclh@gmail.com to register. The camp is free.

**Family Resource Center Accepting Applications for School Supplies** The Family Resource Center will be accepting applications for free school supplies and backpacks. Registration dates are now through June 24th and again from July 9th to 23rd from 8am to 2pm each day. For more information call 642-2938.

Kyra Robbins of Paris shows off her finished fairy house on Saturday, May 26 at the Tennessee National Wildlife Refuge during their “Born to be Wild” weekend event. Kyra was one of around 70 to attend Lauren Posego’s class on amphibians and their life cycles, according to Ranger Joan Howe. After the lesson, the participants made their fairy houses to take home and use to attract more amphibians into their backyards.

**Peddler ADvantage JACKPOT**

**\$500.00**

You have to use the current week's issue to be eligible to win!  
**THIS WEEK'S WINNING NUMBERS WERE**

**47 20 1 32**

and were drawn by Stephanie & Michelle @ The Peddler  
**NO WINNER THIS WEEK!**

Numbers will be drawn each Tuesday morning. Look in next week's Peddler ADvantage for the 4 winning numbers. Jackpot increases \$25 each week until won or \$500 limit. Then a new Jackpot will begin at \$25.

**JACKPOT RULES**

Absolutely only one entry per household each week! No photocopies will be allowed. Any jackpot entries that have the same handwriting or appear to be in conjunction with any other entry will be disqualified. All entries must be brought or mailed to the Peddler ADvantage (512 North Market Street, Paris, TN 38242) before 5pm or postmarked before Friday prior to Tuesday's drawing. We are not responsible for entries lost or late by mail delivery. If more than one correct entry is received the Jackpot will be split between the winners. The Judge's decision is final. Employees and family relation not eligible to enter contest. Must be 18 to enter.

**PICK YOUR FAVORITE 4 NUMBERS BETWEEN 1 & 50**

Jackpot form must be completely filled out to be eligible to win.

**DUN-FOUND-IT!**   
All you have to do is locate the above 5 symbols in the various ads in this week's Peddler. Once you have found the symbols fill out the form below. Write the business name of the ad you found the symbol in. We will take all the forms with correct answers and draw a winner each week. Form must be filled out completely and returned to the Peddler office by noon on the following Monday. **ONE ENTRY PER PERSON** Mail entry to: 512 North Market Street, Paris, TN 38242. **THIS WEEK'S WINNER WILL RECEIVE 2 TICKETS TO THE PARISIAN THEATRE.**  
**DUN-FOUND-IT GAME FOR MAY 31, 2018**  
  
Name: \_\_\_\_\_ Phone: \_\_\_\_\_

**Miss Pearl's Country Cookin'**

**Hazelnut & Chocolate Bread Pudding**  
1/4 cup unsalted butter  
2 tablespoons semisweet chocolate chips  
8 cups cubed challah or brioche  
1/2 cup chopped hazelnuts  
4 large eggs  
1-1/2 cups fat-free milk  
1/2 cup fat-free half-and-half  
1/2 cup hazelnut spread  
1/4 cup sugar  
1/2 teaspoon vanilla extract  
1/4 teaspoon salt  
Heavy whipping cream, whipped  
Microwave butter and chocolate chips until melted. 30-45 seconds; stir until smooth. Cool. In a 3- or 4-qt. slow cooker coated with cooking spray, combine bread cubes and hazelnuts. In a large bowl, combine next seven ingredients, mixing well. Add chocolate mixture to bowl; whisk until smooth. Pour egg mixture over bread and hazelnuts, gently pressing bread cubes to help them absorb liquid. Cook, covered, on low until a knife inserted in center comes out clean, 4-5 hours. Serve warm, dolloped with whipped cream. Yield: 12 servings.

**Brisket & Bean Burritos**  
1 fresh beef brisket (2 pounds)  
1 cup chopped onion  
3 bacon strips, diced  
1 can (8 ounces) tomato sauce  
3/4 teaspoon pepper  
1/4 teaspoon salt  
1 can (16 ounces) refried beans  
1/2 cup salsa  
1 can (4 ounces) chopped green chilies  
1-1/2 cups shredded Monterey Jack cheese  
10 flour tortillas (10 inches), warmed

Place brisket in a 5-qt. slow cooker; top with onion and bacon. Combine tomato sauce, pepper and salt; pour over meat. Cook, covered, on low for 4-1/2 to 5 hours or until meat is tender. In a microwave-safe bowl, combine refried beans, salsa and chilies. Microwave, covered, on high until heated through, 2-3 minutes. Remove meat from slow cooker; when cool enough to handle, shred with two forks. Layer bean mixture, meat and cheese off-center on each tortilla. Fold bottom and sides of tortilla over filling and roll up. Serve immediately. Freeze option: Individually wrap burritos in foil and freeze in a resealable plastic freezer bag. To use, partially thaw overnight in refrigerator. Preheat oven to 350°. Remove burritos from plastic bag. Bake foil-wrapped burritos on a baking sheet until heated through. To reheat one burrito, remove foil and rewrap in damp paper towel; microwave on high until heated through, turning once. Let stand 15 seconds. May be frozen up to 2 months. Yield: 10 servings.

**HENRY COUNTY MAYOR**

*A New Direction*

Follow Garry on Facebook: Garry4Mayor Henry County Tennessee

[www.garry4mayor.com](http://www.garry4mayor.com)

My name is Garry Phillips and I am a Republican seeking the office of Mayor of Henry County.

I am a native Henry Countian, as were both sides of my family since before the Civil War. I was born in Buchanan, raised in India Community, and went to Grove High School before joining the Navy at 17 years old.

Memorial Day, instituted following the Civil War and originally known as Decoration Day, is set aside as a day of remembrance for all military members who died while serving this country. I salute those that have made the ultimate sacrifice to the United States of America. Please take time this weekend to remember these brave men and women.

*Paid for by the Garry Phillips for Mayor campaign. Catherine Herrera, Treasurer*

**Your Weekly Love Horoscope**

 <b>Aries</b> March 21-April 19 You look at your world as if it is a jigsaw puzzle today. Naturally, you want all the disparate pieces to fit together into one coherent picture. Unfortunately, reality can be messy and nothing you do now seems to clean it up. However, rather than pushing for an impossible solution, you may benefit from honing your existing skills or learning some new ones. Paradoxically, letting go of your intention to solve a problem allows resolution to occur naturally. Don't be in such a rush to figure everything out. Embrace the unknown and let your life surprise you.	 <b>Taurus</b> April 20-May 20 People may be caught off guard by how much you want to talk and how fast you speak your words today. Your normally deliberate style of communication feels old and worn out, but you don't necessarily have anything to replace it. Be cautious about overloading others with information too quickly. Put your thoughts in order before you open your mouth because you only get one chance to deliver your message. Verifying data before you share it as fact is always prudent; now it's an absolute requirement.	 <b>Gemini</b> May 21-June 20 You could be put in the position of needing to defend your integrity, even if your behavior has been impeccable. However, someone may cast doubt on your reliability by citing examples of where your previous actions left something to be desired or missed the mark entirely. The bad news is you might not remain quiet long enough to hear the criticism. The good news is you can consciously place your verbal barrage on hold while you reframe your strategy for the days ahead. Author Dan Milman wrote, "You don't have to control your thoughts. You just have to stop letting them control you."	 <b>Cancer</b> June 21-July 22 Your uncertainty about the future puts your nerves on edge now. You want concrete data you can trust, but facts keep unravelling right before your eyes. Yesterday's fundamental assumptions morph into today's erroneous conclusions. Nevertheless, you possess an inner strength that enables you to put away from the maddening crowds and reset your personal center of gravity. Once you have reestablished your authority, you can move ahead with confidence and determination.	 <b>Leo</b> July 23-August 22 You appear to have a problem with your ability to concentrate today. Oddly enough, the closer the deadline, the shorter your attention span. You must take decisive action to improve your mental clarity by eliminating all distractions from your surroundings. Changing your current environment frees you to follow through with your original plans. Sometimes, the most efficient way to alter your internal process is by reexamining your external world and moving some pieces around to shake things up. Marshal Ferdinand Foch wrote, "The most powerful weapon on earth is the human soul on fire."	 <b>Virgo</b> August 23-September 22 You appear to have a problem with your ability to concentrate today. Oddly enough, the closer the deadline, the shorter your attention span. You must take decisive action to improve your mental clarity by eliminating all distractions from your surroundings. Changing your current environment frees you to follow through with your original plans. Sometimes, the most efficient way to alter your internal process is by reexamining your external world and moving some pieces around to shake things up. Marshal Ferdinand Foch wrote, "The most powerful weapon on earth is the human soul on fire."
 <b>Libra</b> September 23-October 22 Conversations that explore alternate paths into the future can be totally captivating now. Although you intuitively understand the need to be practical, you're more attracted to a discussion of ideas today, rather than finding down-to-earth solutions to a dilemma. You're intrigued by innovative approaches to long-standing problems, even if they're totally unrealistic. Don't try to force your thinking into a pragmatic box. Let your mind wander as it will; exercising your imagination is the healthiest thing you can do for your soul.	 <b>Scorpio</b> October 23-November 21 Circumstances may push you to a point where you realize that talk is cheap. Ironically, you might be the one who started an intense conversation about a delicate issue, even if others weren't eager to join in. Nevertheless, fruitful discussions only go so far. You don't need to wait for someone else to take the lead; put your ideas into motion and see who steps up and joins you for the ride. It only takes one brave heart to get the ball rolling.	 <b>Sagittarius</b> November 22-December 21 There isn't enough time to engage with everyone who wants to talk with you today. In fact, most people seem to be a noisy distraction now. Nevertheless, there is much to be learned from others if you can push past your own assumptions. Letting go of your certainty is the key to receiving a missing piece of information which unlocks the door to your success. Maya Angelou wrote, "Make every effort to change things you do not like. If you cannot make a change, change the way you have been thinking. You might find a new solution."	 <b>Capricorn</b> December 22-January 19 For every job on your plate now, you have at least two or three different plans at your disposal. Although you may be capable of multitasking, you can only experiment with one approach at a time. Rather than wasting valuable energy considering and reconsidering your options, just pick one and run with it. At this point, any action is better than none. Author Marie Roberson wrote, "Nobody can go back and start a new beginning, but anyone can start today and make a new ending."	 <b>Aquarius</b> January 20-February 18 You are blessed with the gift of gab today, but you're not interested in wasting words on needless drivel. You might even walk away from a conversation that doesn't meet your high standards. However, don't assume a holier-than-thou attitude when you disconnect from an interaction. There's nothing wrong with carefully choosing where to spend your energy as long as you are always kind to others. Richard Branson said, "Respect is how to treat everyone, not just those you want to impress."	 <b>Pisces</b> February 19-March 20 Focusing on the present moment is difficult today because your thoughts keep drifting back in time. However, your mental excursions into the past are less nostalgic than part of a serious research project as you reclaim your personal history. Unfortunately, your recollections can be additive if you indulge in them too long. Remind yourself that you are on a mission; get what you came for and return to the here-and-now, which is where you must apply your newfound knowledge. Corrie ten Boom wrote, "Memories are the key not to the past, but to the future."

# Ten Tips For Drivers

(NAPS)—According to the National Highway Traffic Safety Administration, there are 5.25 million driving accidents a year in the U.S.—but they needn’t happen to you.

## What You Can Do

- Don’t use your smartphone while driving. Drivers talking on phones, hand-held or hands-free, can miss seeing up to half of their surroundings, such as pedestrians, bicyclists, motorcyclists or other drivers.

- Drive “defensively.” Be aware of what drivers around you are doing.

- Keep your eyes moving while you drive. Check all mirrors.

- Leave at least two to four car lengths between your car and the one ahead, six or eight at night or in bad weather.

- Obey all speed limits and signs.

- Never drive under the influence of alcohol or drugs, or if you are fatigued.

- Always wear your seat belt.

- Adjust all mirrors and seats properly before starting the car.

- Use turn signals, and ensure your lights are on at night and in bad weather. Make yourself visible with horn, lights and signals.

- Look out for the truck and bus “No-Zone.” Those drivers have big blind spots. If you can’t see the drivers in their rearview mirrors, they can’t see you.

## What Others Are Doing

Many of the professionals who drive trucks, taxis, limousines and buses are recognized for their attention to safety. For example, the 127,000 small-package drivers at UPS are among the safest on the roads, logging more than 3 billion miles per year and delivering nearly 5 billion packages annually. In fact, the company recently inducted 1,582 drivers into its elite “Circle of Honor,” raising to 10,503 the number of drivers who haven’t had a preventable accident for 25 years or more.

Collectively, these drivers logged 14 billion miles and achieved more than 257,195 years of safe driving throughout their careers. That’s enough to circle the equator 547,000 times, or make 206 round-trips to Mars.

Before ever making a delivery, all UPS drivers are taught safe driving methods through the company’s defensive driving platform. The training continues throughout their careers. The company’s UPS Integratd training school for delivery drivers, and Driver Trainer School (DTS)

for tractor-trailer instructors, boast some of the industry’s most rigorous safety training, with the most up-to-date technology, including virtual reality devices. The company even helps those it shares the road with stay safe,

through its UPS Road Code training for teens.

# DIY Car Care Everyone Can Do

## (Family Features)

While taking your car to an auto service professional is a great way to ensure its performance, the Car Care Council reminds vehicle owners there are few simple vehicle checks that they can easily learn and do themselves to save a little money and help keep their vehicles running efficiently all summer long.

With basic knowledge of common maintenance practices and a little

time, motorists can inspect the following components in their own driveway:

- \* Check the tires, including tire pressure and tread. Uneven wear indicates a need for wheel alignment. Tires should also be checked for bulges and bald spots.

- \* Check all fluids, including engine oil, power steering and brake and transmission, as well as windshield washer fluid and antifreeze/coolant.

- \* Check the hoses and belts as they can become cracked, brittle, frayed, loose or show signs of excessive wear. These are critical to the proper functioning of the electrical system, air conditioning, power steering and the cooling system.

- \* Check the wipers and lighting so that you can see and be seen. Check that all interior and exterior lighting is working properly and inspect and replace worn wiper

blades. Keep the reservoir filled with windshield washer fluid.

- \* To keep the cooling system working effectively, the coolant and distilled water mixture for a vehicle's radiator should be 50:50. Never open a hot radiator cap when checking the coolant level in the reservoir. As a rule of thumb, the coolant should be changed annually on most vehicles.

- \* Check the gas cap to ensure it

is not damaged, loose or missing to prevent gas from spilling or evaporating.

- \* Don't neglect the exterior. When washing the outside, make sure to include the tires and wheels and the underside and

fenders to eliminate any road salt or grime. The body of the vehicle should be washed using a product sold specifically for cars. Wax your vehicle every six months.

To learn more about how to care for your vehicle,

and for a free copy of the popular Car Care Guide, visit [www.carcare.org](http://www.carcare.org).

*In need of a*

# If You Know Zero About Zero-Turn Mowers, Here's What You Need to Mow

(Family Features)  
All lawns are not the same, and using the right equipment to maintain the lawn is important. After all, unlocking the potential of the lawn can result in

However, a third lawn mowing option is gaining in popularity - the zero-turn mower. It's called a zero-turn mower because its design allows users to

## Control

Cub Cadet offers its RZT SX Series that includes a more familiar steering wheel versus the typical lap-bar controls that tradi-

tionally have been seen on zero-turns.

The steering wheel option offers patented SynchroSteer(r) technology, providing unparalleled

stability on hills and terrain with no turf damage. With four-wheel control, the RZT SX delivers incredible handling and unmatched stability on hills. The line is available in a variety of cutting widths from 42 to 54 inches.

## Comfort

The RZT SX includes a premium

cushioned seat with armrests, a storage console and charging station provide extra room to bring all the necessities. Mowing near dusk? Built-in LED lights let homeowners mow when the sun isn't on their side.

## Support

All of Cub Cadet's residential zero-turn mowers feature a 3-year limited warranty and

are supported by the strong nationwide network of locally owned Cub Cadet Independent Retailers ready to provide advice and support whenever needed.

Find more information about the latest innovations and technology in lawn equipment at CubCadet.com.

significant advantages from curb appeal to relaxing in the backyard to hosting gatherings with family and friends.

Many homeowners may have a push mower, a lawn tractor or both - and technology on lawn equipment has come a long way over the years. Today's lawn tractors incorporate fuel-injected engines or feature Bluetooth technology that connects with a smartphone.

make zero-degree turns - allowing for easier maneuverability around trees, shrubs, lawn decorations and other obstacles typically encountered when mowing.

Zero-turn mowers are becoming more popular for homeowners because they are comfortable, have great handling and can mow lawns quickly and efficiently.

Here are three key areas to consider with zero-turn mowers:

# 5 TIPS FOR SUMMER ROAD TRIPS

(Family Features)  
For many people, summer means setting out on a road trip in search of bucket-list-worthy excitement or a relaxing vacation.

Whether you're going down the road to visit family or across the country to see a national monument, it is important to prepare your vehicle – and its tires – before you pull out of the driveway.

These five safety tips can help get your family ready to hit the road this summer:

**1. CHECK YOUR TREAD** – A tire's tread depth can determine a vehicle's safe stopping distance. You can check your tread depth by sticking a penny upside-down in a tread groove. If you can see President Lincoln's head, it's time to replace your tires.

**2. ENSURE PROPER TIRE PRESSURE** – Low tire pressure can lead to poor handling and gas mileage, excessive wear and overloading. Drivers should

check their tire pressure at least once a month, and especially before any long trip. Use a dependable air gauge or stop by an automotive store like Discount Tire or America's Tire to take advantage of complimentary air checks.

**3. ROTATE OFTEN** – Tires should be rotated at least every 6,000 miles or earlier if irregular or uneven wear develops.  
**4. Inspect Your Trunk** – Some new vehicles no longer come equipped with a spare tire, opting instead for tire inflation kits that feature puncture coating sealants and air compressors, or even run-flat tires. Check your trunk to see what your vehicle contains and make sure you have a roadside assistance plan should the need arise.

**5. DON'T OVERLOAD** – The combination of heat and overloading a vehicle, which can be common during summer travel, is one of the most dangerous condi-

tions for a vehicle's tires as overloaded tires can overheat and possibly fail.

When it comes to summer driving safety, it can be imperative to check your tires early and often. Knowing the condition of your tires can keep your family safe and your vehicle in quality condition.

“It is important that drivers know how to check and maintain their tires and recognize the warning signs of when to replace them, especially during the hotter months,” said Tom Williams, senior vice president at Discount Tire. “Keeping customers and their families safe is our No. 1 priority each summer.”

To learn more about tire safety before a summer road trip, or to schedule an appointment for a tire safety check, visit [tires.com](http://tires.com).

# Your Brakes May Be Trying To Tell You Something

(NAPS)—If your brakes are trying to tell you something, you should pay attention. A properly operating brake system helps ensure safe vehicle control and operation and it should be checked immediately if you suspect any problems.

“While an annual brake inspection

is a good way to ensure brake safety, motorists should not ignore signs that their brakes need attention,” said Rich White, executive director, Car Care Council. “Knowing the key warning signs that your brakes may need maintenance will go a long way toward keeping you and others safe on the road.”

## What To Watch Out For

Motorists should look for the following warning signs that their brakes need to be inspected:

- **Noise:** screeching, grinding or clicking noises when applying the brakes.

- **Pulling:** vehicle

pulls to one side while braking.

- **Low Pedal:** brake pedal nearly touches the floor before engaging.

- **Hard Pedal:** you must apply extreme pressure to the pedal before brakes engage.

- **Grabbing:** brakes grab at the slightest touch to the pedal.

- **Vibration:** brake pedal vibrates or pulses, even under normal braking conditions.

- **Light:** brake light is illuminated on your vehicle’s dashboard.

Because brakes are a normal wear item on any vehicle, they will eventually need to be replaced. Factors that can affect brake wear include driving habits, operating conditions, vehicle type and the quality of the brake lining material. Be sure to avoid letting brakes get to the metal-to-metal point as that can mean expensive rotor or drum replacement.

The Car Care Council offers a free custom service schedule and e-mail reminder service to help car owners remember to have their brakes inspected and take good care of their vehicles. It’s an easy-to-use resource designed

to help motorists drive smart, save money and make informed decisions.

The Car Care Council is also the source of information for the “Be Car Care Aware” consumer education campaign promoting the benefits

of regular vehicle care, maintenance and repair to consumers.

# 5 Easy Ways to Relax and Recharge on a Boat this Summer

stress and constantly connected to technology, with just 46 percent taking their full vacation time, according to Project Time Off’s 2017 study, The State of American Vacation.

One easy solution? Get on the water and go boating. Whether close to home or on vacation, being on, in or near the water is good for you. In fact, the human brain consists of 75 percent water, so when you see or hear water it triggers the brain to react positively, according to Dr. Wallace J. Nichols, marine biologist and author of Blue Mind, a bestselling novel on the scientific connection between water and happiness.

Americans are working longer hours, dealing with

may think. In fact, more than 142 million Americans go boating each year, according to the National Marine Manufacturers Association. “Modern technology can make it more difficult to fully disconnect and relax, and boating is one of the few activities that can take you away from daily distractions to a place where you can reconnect with friends and family, relax and enjoy the outdoors,” says Carl Blackwell, president of Discover Boating.

There are easy ways to get on the water, no matter where you are or whether your interests lie in fishing, watersports, sailing, personal watercraft or simply cruising with loved ones. Use

these five tips to help you find your way on the water this summer.

**Join a boat club.** Find a boat club near you to access a versatile fleet of boats. You’ll pay a monthly fee and be able to book your time on the water online. Most boat clubs take care of docking, cleaning and maintenance, with members responsible for fuel. Plus, most offer boat training courses as part of the membership.

**Rent a boat.** Rental options are available on most waterways and provide hourly, daily or weekly access to a variety of boat types. Rental outfitters give tutorials on operating a boat, share safety instructions and

Genuine Nissan Ester Engine Oil or synthetic may be available at additional cost. No cash value. Offer expires June 30, 2018.

(BPT) - Looking to get away from the daily grind this summer? The answer may be to leave your stress on land and take those summer plans on the water. Four in five Americans say being around water relaxes them, and 72 percent feel healthier after spending time on the water, according to a Discover Boating survey.

Americans are working longer hours, dealing with

## PARIS UPHOLSTERY

Auto - Marine - Home - ATV - Motorcycle  
Commercial - RV Upholstery and More...

731-924-4010 | parisupholstery.com | Mon. - Thurs. 8 - 5:30

Owners: Ervin & Kathy Cserni

**"There are easy ways to get on the water, no matter where you are or whether your interests lie in fishing, watersports, sailing, personal watercraft or simply cruising with loved ones."**

offer suggestions on destinations. Another rental option new to market is peer-to-peer rentals, where you can locate boats online by entering your zip code, allowing you to rent someone else's boat, which usually includes insurance and captains for hire to help you set sail.

**Charter a trip.** Explore new waters and experience the boating lifestyle by chartering a boat trip with family or friends. Chartering offers several options - bareboat (with no captain) or

crewed (with captain and crew), and can be as short as a few days or weeks long. Pick your preferences and get your feet wet.

**Take a class.** Sign up for a boating lesson to hone your powerboating, sailing or watersports skills by mastering the basics while having fun along the way. On-water training courses, watersports camps, youth boating programs and more are offered across the U.S.

**Float your own boat.** Chart your own

course to boat ownership by visiting DiscoverBoating.com, where you'll find a boat selector and loan calculator tool to help determine your budget and identify types of boats that fit your lifestyle. Once you've narrowed down your search, the site can connect you with manufacturers whose boats best fit your needs and wants.

Get off the dock and climb aboard a boat this summer by using DiscoverBoating.com's Go Boating Today interactive tool - just enter your zip code to find boat clubs, rentals or charters close to home.

# GET FUELED UP FOR WARMER WEATHER

(NewsUSA) - It's spring and that means it's time to take your boats, lawnmowers, classic cars and other summer gear out of the shed to get them ready for sun and fun! But before you hit the road, lawn or waves, it's important to set aside some time for preventative maintenance to make sure your summer plans don't stop short.

You'll of course want to wash and wipe off the exterior of your summer

toys, but it's very important not to skip maintenance of the internal workings of your vehicles.

Despite the famous saying, “what you can't see can hurt you” this is where STA-BIL, America's no.-1-selling and trusted ethanol treatment and fuel stabilizer brand, comes in. STA-BIL, which is celebrating its 60th anniversary, helps consumers protect their cars, boats and small engines from the inside out,

keeping them running at their peak year-round.

Since fuel can go bad in as few as 30 days, using a fuel stabilizer at each fill-up can increase power and fuel efficiency while helping clean and protect your engine from the potentially harsh side effects of ethanol-blended fuel.

Think of STA-BIL as the peacekeeper that helps the fuel and water in your engine play nicely, protecting your fuel

tank from corrosion and phase separation.

As consumers prepare to take their equipment out of storage for the spring, two key aspects of engine maintenance should be top-of-mind:

\* Function. Fueling up at the pump is just one step in keeping your fuel tank running. Products with a proven track record, such as the lineup of STA-BIL Fuel Stabilizers, are

specially formulated to treat each of your vehicles or equipment differently, whether they are on the road, in the water, or in the backyard tool shed.

If you find yourself in a bind and your engine isn't running quite right, try cleaning it, but from the inside. STA-BIL Carb & Choke Cleaner is designed specifically to help clean the engine by dissolving gum and varnish, as well as dirt and carbon deposits that keep engines from functioning at their peak. A clean engine starts more easily and runs more efficiently, which saves time and money.

\* Protection. Innovations in small engine products have led to the development of pump protectors that keep components of gear- like pressure washers in good shape over long storage periods. The latest addition to the STA-BIL family, STA-BIL Pump Protector, also provides antifreeze protection and serves as a lubricant and guardian against mineral deposit buildup, which can decrease the efficiency of your pressure washer.

If your gear tends to sit out exposed to the elements, protection against rust should be a

top priority. Look for a product that will protect exposed metals, like STA-BIL Rust Stopper, which is quick and easy to apply.

Internal parts need protection too, which is where a propelled oil, such as the STA-BIL Fogging Oil, can make a difference. Fogging oil is designed to help displace moisture from engine parts, protect the components, as well as lubricate them for optimum function.

To learn more about how to keep warmer weather engines functioning at their peak, visit [www.sta-bil.com](http://www.sta-bil.com).

# PERSONALIZE YOUR RIDE WITH A NEW SET OF WHEELS

(BPT) - The idea of a new car or truck is exciting. What's even more exciting is making that new vehicle your own.

There are countless ways to personalize a vehicle, but one of the easiest ways to spruce up a vehicle is by adding a new set of wheels. In fact, wheels are typically the first thing vehicle owners upgrade on a car or truck after purchasing it from the dealership.

According to the Specialty Equipment Market As-

sociation (SEMA) in its 2017 Market Research Report, wheels are among the most purchased items by consumers in the \$42 billion aftermarket industry. Because there are many wheel options, SEMA recommends researching the various wheel types available for your specific vehicle and learning about the different wheel finish options, each of which has its advantages and disadvantages to consider before buying.

[westan.net](http://westan.net)

[info@westan.net](mailto:info@westan.net)

Here are basics about wheel finishes to keep in mind:

**PAINTED:** Opting for painted wheels will give you an endless amount of options when it comes to colors and effects, allowing you to personalize your vehicle exactly how you desire. Painted wheels are typically primed before wet paint is applied, and they are finalized with a clear topcoat to protect the paint. To minimize damage or discoloration due to heat or dust brought about by daily use, painted

wheels should be cleaned with a non-acidic and non-abrasive soap that should not be allowed to dry onto the wheel.

**POLISHED:** Polished wheels are great if you want a wheel with a shiny look or mirror-like finish that is not heavy, which could aid in fuel economy. The wheel is polished to a high luster by buffing it using a machine or by hand before being protected with a high-gloss clear coat. Polished wheels can be cleaned with mild soap and dried with

a microfiber towel, then coated and hand-polished with a non-abrasive wax to help it maintain its luster.

**CHROME:** If you want the shiniest look possible, opt for a chrome wheel. This popular and classic type of wheel finish is achieved by adding layers of metals, such as copper, nickel and chromium, to create a very reflective finish. You can easily clean chrome wheels with soap and water, then dry them with a soft cloth. To prevent dirt and dust from

sticking to the wheels, add a layer of wax after cleaning them.

### **POWDER-**

**COATED:** For an extremely durable wheel finish that is resistant to scratches and fading and comes in many color options, go with a powder-coated wheel. To achieve this finish, a wheel is ground and sprayed with a powder-coat (usually a polyester or epoxy), then exposed to heat (usually in a heat-ing oven), essentially baking on the smooth finish. Like their painted counterparts, powder-coated wheels can be cleaned with a mild soap that should not be allowed to dry on the wheel finish. You can further protect the finish by applying a wheel sealant or coating solution.

These are but a few of the many types of finishes available in the wheel segment of the automotive after-market industry that can help give your vehicle an updated look. Every type of wheel finish provides variations in shine, color and required maintenance, so take the time to research what's available. Regardless of the wheel you decide to go with, it will surely help get you

on the road to creating a vehicle that meets your unique, individual needs.

Manufacturers introduce new wheels and many other products annually at the SEMA Show, the leading trade-only show for businesses in the automotive industry. Consumers can connect with some of these businesses at the official

SEMA Show after-party, also known as SEMA Ignited, where one-of-a-kind custom vehicle builds featuring the newest after-market products, including wheels, parade out of the convention center before making their way to the ultimate car show open to the public. For more information, visit [www.semaignited.com](http://www.semaignited.com).
