The Sheperd's Table Cookout
The Shepherd's Table, the Community Kitchen created by the volunteers at the First Presbyterian Church, will be having a cookout, on Tuesday, June 19th, in front of their building at 19835 E. Main Street. Dining will begin promptly at 5:15pm and the kitchen will be open until 6:45pm. Anyone hungry or seeking fellowship for a meal is invited. Jason Vandiver, Chairman of The Shepherd's Table Executive Committee, says they will be grilling hamburgers on the lawn in front of the church. Mary Lodge, a volunteer in the kitchen, said they will also serve Taco Salads, Watermelon, and for dessert, Cookies and Ice Cream. Everyone that attends The Shepherd's Table is treated as a guest and served restaurant style. After you come in and have a seat, a volunteer brings you your drink and your supper. They also do all of the cleanup, as well. The guests are asked to simply enjoy a delicious meal compliments of the hard-working kitchen staff. The mission of the Community Kitchen

was to serve at least one person in need a hot meal. The community kitchen's success is dependent upon guests, volunteers and donations. If you know of someone that needs a hot meal or would just prefer to not eat alone please inform them about The Shepherd's Table or better yet bring them by and join. More information about volunteering or donating to the Shepherd's Table may be obtained by calling The First Presbyterian Church of Huntingdon at (731) 986-5642. If no answer, please leave a message, someone will get back to you as soon as possible.

Your Weekly Love Horoscope

 Aries March 21-April 19	 Taurus April 20-May 20	 Gemini May 21-June 20	 Cancer June 21-July 22	 Leo July 23-August 22	 Virgo August 23-September 22
You're standing on the edge of a new project and you're eager to get started. However, you may be receiving subtle warning signals, reminding you that in-depth research is necessary now because its so easy to miss an important piece of information. Don't worry if launching your project takes a bit longer than you imagined. Its so much easier to handle a potential mess before it manifests. Albert Einstein quipped, Intellectuals solve problems, geniuses prevent them.	You prefer to take care of business in the immediate moment, but responding to situations as they develop today can temporarily derail your long-term goals. Its as if you are managing reality on two entirely different levels -- and your attention to one is counterproductive to the other. Trying to play both games simultaneously might be so frustrating that you want to run and hide. However, its liberating to accept the fact that you cant be in two places at once. For now, stay present in the moment. Your connection with distant time and space will return tomorrow.	You are in an extra-chatty mood today and could enjoy the company of others under nearly any circumstances. However, it may be awkward if someone shifts the topic of a conversation to a delicate subject. Although theres no reason to avoid such a discussion -- and it might lead to something quite meaningful -- you prefer to keep the talk light and breezy. Internationally, flash can change dramatically in a moment, so continue to monitor the emotional intensity with vigilance. A few guiding words at the right moment can steer you away from slipping into the danger zone.	You might not be as emotionally available today because youre so busy carrying on long rambling conversations with yourself. However, someone may approach you for a heart-to-heart talk about an unresolved issue. Although you could try to sidestep the interaction, your reclusiveness gives way to the pressures of the real world now. Ironically, you may end up pleased about the dialogue because you learn something of value about yourself. Author Oli Anderson wrote, When people challenge your ideas, they help you.	Responsibilities require you to be one hundred percent present on the job today with little room for slacking off. Unfortunately, your thoughts may be one hundred miles away with little connection to your work. Although your unfulfilled desires are certainly distracting, you must manage the dissonance between reality and your dreams. Postponing personal pleasure for the sake of honoring your commitments to others is integral to your success. Delaying instant gratification enables you to experience long-term satisfaction.	You can surprise yourself today by speaking out about a sensitive topic that is close to your heart. Youre not one to reveal your feelings unless youve given it a lot of thought first. However, the energy could shift so quickly that you may be in the middle of a deep discussion before it actually dawns on you. But rather than emotionally retreating once you realize your circumstances, stay with the subject until the process completes on its own. Author Margaret Heffernan wrote, For good ideas and true innovation, you need human interaction, conflict, argument, debate.
 Libra September 23-October 22	 Scorpio October 23-November 21	 Sagittarius November 22-December 21	 Capricorn December 22-January 19	 Aquarius January 20-February 18	 Pisces February 19-March 20
The most trivial events seem to agitate people around you, amplifying tiny ripples of disturbance into substantial waves. You dont understand why anyone would get so upset about things that matter so little. Nevertheless, you cant gracefully escape from the noise now, so you smile and put up with it. Fortunately, theres no good reason to feed into any dramas that dont directly concern you. Poet Gerard Manley Hopkins wrote, Your personal boundaries protect the inner core of your identity and your right to choices.	Youre weary of inefficiency in the workplace thats perpetuated because its the way things have always been done. You are ready to throw a wrench into the gears, stopping progress in its tracks. You believe that only after your spontaneous intervention can a more effective method be created. Sometimes, radical action is required to make incremental improvements. Steve Jobs said, Innovation distinguishes between a leader and a follower.	You are thankful now that the cosmos is handing you a permission slip, instead of a request to untangle more red tape. You are not to trot, so youre pleased that people are encouraging you to make your move today. Oddly enough, you might realize you could put your entire plan in jeopardy if you bolt ahead without a thoughtful strategy in place. Intelligent self-restraint is necessary to make sure your actions create the greatest possible impact on the future course of events. Theres no need to rush anything in order to keep your appointment with destiny.	Everyone at work is talking incessantly, but they dont seem to be saying anything of consequence. In fact, you might decide theres no sensible reason to listen to others today. You have a job to do and cant waste time on insignificant banter. However, withdrawing from social interactions carries a price and you could retreat so far that you end up isolating yourself from the rest of your team. Ultimately, you can accomplish more when youre collaborating with people who are striving toward the same goal. Author Doug Floyd wrote, "You don't get harmony when everyone sings the same note."	You are fearless today when it comes to tackling a job youve never done before. In fact, youre excited about doing something different, even if there is uncertainty attached to your mission. Rather than worrying about the opportunity to be a pioneer and to discover new experiences, your attitude is commendable but taking your confidence too far could lead to cavalier behavior. Stay positive and be respectful of others as you charge forward into your future. Be bold and kind at the same time.	You have a healthy relationship between your desire to quietly work behind the scenes today and your need to be appreciated by your cohorts. Normally, this complex dilemma might be unresolvable, but somehow you seem to navigate through these polarities in a manner that satisfies both ends of the spectrum. Thankfully, you wont have to sacrifice peer recognition if you want to work on your own. Just be clear when communicating your wishes to those in your emotional neighborhood. Oprah Winfrey said, You get in life what you have the courage to ask for.
