DUN-FOUND-IT GAME FOR JUNE 8, 2017

Name: _____ Phone: _____

Apple Chips

original recipe makes 6 servings

- 2 Golden Delicious apples, cored and thinly sliced
- 1 1/2 teaspoons white sugar
- 1/2 teaspoon ground cinnamon

Preheat oven to 225 degrees F. Arrange apples slices on a metal baking sheet. Mix sugar and cinnamon together in a bowl; sprinkle over apple slices. Bake in the preheated until apples are dried and edges curl up, 45 minutes to 1 hour. Transfer apple chips, using a metal spatula, to a wire rack until cooled and crispy.

*If you want, flip apple slices halfway through baking and sprinkle the other side with cinnamon sugar. **Note: they will not feel crispy until they cool down.**

Chicken Stroganoff

Original recipe makes 4 servings

- 4 skinless, boneless chicken breast halves - cubed
- 1/8 cup margarine
- 1 (.7 oz) package dry Italian-style salad dressing mix
- 1 (8 oz) package cream cheese

Put chicken, margarine and dressing mix in slow cooker; mix together and cook on low for 5 to 6 hours. Add cream cheese and soup, mix together and cook on high for another 1/2 hour or until heated through and warm.

Double Chocolate Fudge Pops

original recipe makes 8 frozen fudge pops

- 1/2 cup white sugar
- 2 tablespoons cornstarch
- 2 tablespoons cocoa powder
- 2 1/2 cups whole milk
- 1 teaspoon vanilla extract
- 1 tablespoon butter

Combine the sugar, cornstarch, cocoa powder, and milk in a small saucepan over medium heat. Bring to a simmer, and stir until thick, about 2 minutes. Remove from heat; stir in vanilla and butter. Transfer to a heatproof bowl, and refrigerate until cool, approximately 20 minutes. Stir the chocolate chips into the cooled chocolate mixture. Pour into molds and freeze until firm, about 4 hours.

Grilled Yams

original recipe makes 4 servings

- 1 large yam, peeled and cut into 1/2 inch thick slices
- olive oil-flavored cooking spray
- salt to taste

Preheat a grill for high heat. When the grill is hot, lightly oil the grate. Coat the strips of yam with olive oil cooking spray and season with salt. Arrange the yam strips on the grate crosswise so they don't fall through. Cook for 10 to 12 minutes per side, until tender and glazed. Serve with butter.

Your Weekly Love Horoscope

Aries

March 21-April 19

You are raring to go the distance, even if you are burning the candle at both ends now. Pushing yourself to extremes is nothing new for you adrenaline-happy Aries, and cerebral Mercury's shift into your 3rd House of Communication only fans your intellectual fires. Counterbalance your tendency to jump into another project by remembering to streamline your busy schedule. You will have more to show for your efforts if you reassess your commitments and finish one task before beginning another. Author Jim George wrote, "It's not how you start that's important; it's how you finish."

Taurus

April 20-May 20

You are an expert at patiently waiting for the right moment to initiate action. Although it's not necessarily convenient today, you're compelled to express your position in an unresolved disagreement. Nevertheless, it's still challenging to begin a conversation about a sensitive topic. The truth is your friends will quickly lose interest if your delivery wanders aimlessly. Keep your message short and sweet. Let everyone know you're not seeking an immediate answer; you just need your perspective to be heard and appreciated. Author Jeff Hood wrote, "Distance doesn't separate people; silence does."

Gemini

May 21-June 20

There may be so many options in front of you today that you don't want to pick just one. Nevertheless, you're driven to make a choice and begin a new project while insistent Mercury is visiting your sign. Reassess your work habits to uncover the ones that have served their purpose, and then imagine how their replacements will improve your efficiency. Concentrating on your immediate needs instead of making long-term plans can profoundly impact your trajectory. Don't let your fears and expectations of the future steal the thunder of the present moment.

Cancer

June 21-July 22

Your thoughts are running around in a multitude of directions today and you could exhaust yourself chasing each and every one of them. However, messenger Mercury's move into your 12th House of Privacy obscures your true motives. You are quite self-contained and even people close to you won't likely realize the intensity of your unsettled emotions. There's nothing wrong with keeping your visions to yourself as long as you remember to stay conscious of them. Scott Ringenbach wrote, "Imagination is the reality of the dreamer."

Leo

July 23-August 22

A close friend or relative could burden you with unspoken demands today and you don't know how to respond. You may think you're clever enough to tap dance around the uncertainty, but you quickly conclude that logic won't help you regain control of the situation. You might try to second-guess the motives of others, but this analytical strategy only leads to frustration. Practicing emotional detachment alleviates the current pressure. Rather than attempting the impossible task of pleasing everyone, initiate an honest dialogue if you want to know the truth. Transparency is a show of strength.

Virgo

August 23-September 22

You're not sure how to best establish new objectives at work today because you are being inspired to head in multiple directions at once. Furthermore, discerning the useful information from everything you learn is challenging while your key planet Mercury travels through noisy Gemini and your 10th House of Career. Assessing all your options is a daunting task if you think you must make a long-term decision right away. Luckily, you have plenty of time to figure out your next move. A Polish proverb cautions, "When a man is in a hurry, the devil is happy."

Libra

September 23-October 22

There is an extra bounce to your step now, as a wave of levity washes over your body. You can feel your cells being activated from head to toe as breezy Mercury flies through your 9th House of Adventure, stretching you beyond your old limits. Give yourself permission to dream of your ideal future without worrying whether or not it is possible. Like magic, today's fantasies can grow into tomorrow's reality.

Scorpio

October 23-November 21

You must be careful about jumping to conclusions today, since you could be overwhelmed with unconscious desires. The most direct solution is to monitor your feelings as you go along. Quicksilver Mercury's move into curious Gemini brings intellectual acuity, reinforcing your natural drive to get to the bottom of the enigma. Naturally, digging into the mysteries is a significant theme for you passionate Scorpios. Fortunately, exploring the shadows from a more lighthearted and logical point of view now produces positive results.

Sagittarius

November 22-December 21

Almost any little encounter has the potential of pulling you off course today. Interactive Mercury is dancing through your 7th House of Others, shifting the emphasis to how you respond in a relationship, rather than what you initiate on your own. Taking the lead is not advised now unless you're looking to make your life more complicated. Luckily, you can have more fun if you're willing to step out of the spotlight for a while and play a supporting role instead. The brightest stars are those who shine for the benefit of others.

Capricorn

December 22-January 19

Almost any little encounter has the potential of pulling you off course today. Interactive Mercury is dancing through your 7th House of Others, shifting the emphasis to how you respond in a relationship, rather than what you initiate on your own. Taking the lead is not advised now unless you're looking to make your life more complicated. Luckily, you can have more fun if you're willing to step out of the spotlight for a while and play a supporting role instead. The brightest stars are those who shine for the benefit of others.

Aquarius

January 20-February 18

Your previous commitments are moved to the back burner as pleasant planetary positions pull you toward pleasurable activities today. You may aspire to lofty goals, but the opportunity for play eventually wins out over serious hard work. Mercury's visit to your 5th House of Spontaneity urges you to set aside your plans and make up new ones as you go along. Unpremeditated bursts of self-expression bring unexpected joy into your life.

Pisces

February 19-March 20

You might dream about staying home today, even if you know you're needed at work. Your associates could quickly assume that your current desire for escape is a sign that something is out of balance, but they are likely barking up the wrong tree. Making time to manage personal matters allows you to attune to analytical Mercury as it moves through your 4th House of Roots. Don't worry about what others think; your inner security counts more than anything else now. Safety first when it comes to your heart.
