My name is Garry Phillips and I'm running for Mayor of Henry County. I want to hear from people whose voices are often shut out of public discourse. Intelligent debate and public dialogue are essential to good government. As mayor I will hear people out and encourage all county officials to do the same. My desire is to see the county grow with sustainable jobs and educational opportunities—without the burden of illegal drugs. On August 2, I would appreciate your vote for me, Garry Phillips, for County Mayor - and start *A New Direction* for Henry County.

## Your Weekly Love Horoscope

 <b>Aries</b> March 21-April 19 Triple-check your parachute before any major leaps today. Your own creative expression and the use of your talents are radically changing in unexpected ways. The urge to revolutionize your public platform can go in multiple directions, and your actions may have far-reaching consequences. Maintain your diplomacy in the workplace and tap in to your impulse control. Knowing that energy is neither created nor destroyed enables you to trust that any new endeavor will ultimately serve your growth.	 <b>Taurus</b> April 20-May 20 Foundations come to the forefront for review now. The planetary winds bring a fresh insight on the importance of your roots, and how they influence your philosophies and beliefs today. Although you usually prefer to stay grounded in tradition, the very nature of your being receives a cosmic electric shock which draws you toward new and unusual methods of experiencing the world. Lean into the uncertainty as you transition into your next best self. Poet John O'Donohue wrote, The greatest friend of the soul is the unknown.	 <b>Gemini</b> May 21-June 20 Your adaptability skills sparkle when life is in limbo. Your intellectual self-understanding is undergoing a tectonic shift which may cause you to reconsider everything you thought you were. Your own purpose and your spiritual beliefs are on the brink of massive change now. Calm your nerves and sharpen your discipline. Within this new realm of possibility, your next chapter of life is yet to be written.	 <b>Cancer</b> June 21-July 22 Things are up in the air and you need to get comfortable with the instability sooner than later. Humanitarian endeavors are alluring now, but their best implementations may be elusive at the moment. Cultivate harmony and beauty in your immediate environment. Watch for the tendency to be possessive or restrictive. Examine where your own habits keep you stuck. The oscillation between your relationship to self and others may appear to be at odds, but integration will come if you remain patient and open to change.	 <b>Leo</b> July 23-August 22 You're ready to rattle your cage and rock your world now. Its your season and you'll roar if you want to! If you had one conformist bone left in your body, it would be shattered. The status quo will no longer cut it. You're focused on your personal ascension at all costs now, but extreme brazenness backfires. Burning your bridges or bickering with the boss will not bode well. Shine your greatest light and keep your intentions pure for optimal results.	 <b>Virgo</b> August 23-September 22 Your best foot forward could potentially be your Achilles heel. Your perfectionist nature and earnest drive to help others can easily devolve into self-sacrifice and martyrdom if you don't check yourself. The truth is your common sense is in high demand, but you don't have to save every broken person who rings your doorbell. The pressure to be all things to all people only leads to you being an exhausted nervous wreck. Make plans to get out of town or take a meditative journey through your inner creative landscapes for a well-deserved break.
 <b>Libra</b> September 23-October 22 Collective consciousness can turn into groupthink if you're not careful to ask questions and verify sources. Having a tribe with the same life goals is imperative for building in the world today. Who are you outside of the identities and labels you carry? Your accommodating nature can spiral into performance anxiety if you take on too much of an external agenda. Avoid excessive tinkering in projects and peoples lives. Remain grounded and in touch with your highest self.	 <b>Scorpio</b> October 23-November 21 Acknowledging your compulsive habits is the first step to freedom. Addictions come in many forms beyond substance abuse. Shopping until you drop, obsessing about your ex, or endlessly checking your phone are a few of the activities that can keep you in bondage. Stagnation is futile; all the places where you stay stuck will be cosmically blown open, giving you the chance to reassemble the pieces with true power. Make a concerted effort to follow through on your promises and be a person of your word.	 <b>Sagittarius</b> November 22-December 21 A brave new path is about to unfold. As current events serve to transform your long-held beliefs, a yearning for more variety in your daily routine surges forth. Harness this new frontier by being proactive about authoring your life. Search your mind for clever ideas that will enhance your quality of work. Take initiative in doing something that's never been done before. Change yourself, change the world.	 <b>Capricorn</b> December 22-January 19 The ego is not the enemy. Instead of being held hostage to the illusion of separation and competition, use the ego as the tool it is. Take your current erratic approach to fun-loving collaborations and integrate it to find wholeness in your relationship world. Embark on a fresh journey of self-improvement through recognizing how everyone is connected by a common thread. Transcend personal limitations by giving from your heart and sharing your resources, no strings attached. Live with childlike wonder and serve without needing to rule.	 <b>Aquarius</b> January 20-February 18 Connections to your family, clan, and significant others are shifting right in front of your eyes. Closest skeletons may emerge, and a general restlessness amplifies the atmosphere today. Ingrained programming and old-school beliefs surface to be transformed; stay flexible and dedicate yourself to uncovering the root cause of your triggers. Assist others who seek freedom and honor the parts of you that feel rebellious. Turn personal devastation into community innovation by swallowing your pride and owning your wild side.	 <b>Pisces</b> February 19-March 20 Your mind is like a filtration system for new ideas and information. You can't wait to share your creative inspirations with your support network. However, others might not respond with enthusiasm today, prompting you to weave a web of worry. Be aware of any tendencies to wallow in self-pity or engage in miseries-compensating parties. This current lack of connection has little to do with you, and more to do with the unpredictable cosmic weather. People are distracted by the unexpected and need your compassion now. Let go of expectations and give your curiosity permission to roam on its own.
