Local Veterans organizations, National Guard Members, and community members will serve as volunteers. Former Chamber Executive Director Mark Johnson said, "this will be a very moving and fulfilling event which will offer our community an experience that many otherwise would never have. We're excited about the educational value it will bring to our youth." The Paris Henry County Chamber of Commerce has helped to organize and fund the event, but couldn't do it without help from volunteers from our veterans and military organizations in the community and region. Johnson said it takes a large volunteer effort and anyone interested in volunteering can call the Chamber at 642-3431 no later than August 15th. For more information on the moving wall, visit www.themoving-wall.org. For more information on the local event visit the chamber's website at www.paristnchamber.com

Your Weekly Love Horoscope

Aries

March 21-April 19

Power politics pervade the workplace as someone tries to gain control over an unstable situation. However, you believe you can out-scheme anyone and already have a plan of your own. Unfortunately, there's more going on than meets your eye today. Although you won't likely see what you're getting into until it's too late, you still can figure it out as the plot unfolds. Military strategist Carl von Clausewitz wrote, Self-reliance is the best defense against the pressures of the moment.

Taurus

April 20-May 20

There is a deluge of intense emotions flowing around you today, and it's easy to get swept up in someone else's drama. Every trivial event pushes your buttons, activating waves of fear or passion. You are compelled to take control of the situation, even if you don't have the authority to do so. Nevertheless, the circumstances are not as dire as you think. There's no need to panic; instead, step back from the chaos and take several deep breaths. Journalist Kimberly Jones wrote, Don't let people pull you into their storm. Instead, pull them into your peace.

Gemini

May 21-June 20

Someone is pulling your strings at work today, and you're not comfortable being played like a marionette. Although your adaptability is often your saving grace, it's prudent to reconsider your reaction before taking the easy way out. You could fight back by resisting each tug one way or another. However, you're clever enough to change the entire game by cutting yourself free. Whatever strategy you employ now, you still need to consult your inner compass for moral guidance before making your next move. Screenwriter Syd Field wrote, Confusion is the first step toward clarity.

Cancer

June 21-July 22

It's as if you're in the eye of a hurricane today. Although the air is mysteriously still, your position is quite unstable. You're surrounded by the wild winds of change and nothing you do now is going to resolve the emotional tension a relationship creates. You want peace and quiet, yet others only seem to bring drama to your doorstep. Nevertheless, you can find solace in self-reflection, music or art. Don't let a little rain destroy your tranquility.

Leo

July 23-August 22

Although you're normally quite expressive, you could hide your real feelings behind a dramatic show of positive energy today. There might be an interpersonal struggle for control occurring with someone attempting to manipulate your emotions at work. But you're not interested in feeding into a dynamic that ultimately diminishes your power. Anna Freud wrote, I was always looking outside myself for strength and confidence, but it comes from within. It is there all the time.

Virgo

August 23-September 22

You're ready to cash in your chips, even if you're on the losing side of the table. However, something weird happens now, and you could end up collecting more money at the cashier window than expected. Today's lesson is about trust; when you relinquish control to the cosmos, things tend to work out in your favor. But if you deny your fears, you'll find yourself in a losing battle. Eckhart Tolle wrote, To offer no resistance to life is to be in a state of grace, ease, and lightness.

Libra

September 23-October 22

You may be secretly battling your demons today, but you're still able to put your best foot forward. No one realizes the intensity of your inner processing -- and that's just fine with you because you're not interested in revealing your vulnerability now. Unfortunately, it's nearly impossible to deepen a relationship unless you can move past your fear of losing control. However, in order to benefit from someone's support there must be mutual trust. Author Katrina Mayer wrote, Integrity is making sure that the things you say and the things you do are in alignment.

Scorpio

October 23-November 21

You're eager to embark on an emotional journey if you think the destination is love. However, the cosmos is telling the story of your life today, and you can't put the book down. Ironically, the plot is twisting in ways you don't yet understand, which feels strangely familiar to you. You're willing to follow along if you think there's something for you to learn. After all, you want to deepen your experience any way you can. Poet Rumi wrote, I am not looking to escape my darkness, I am learning to love myself there.

Sagittarius

November 22-December 21

All the socializing in the world won't save you from confronting your own emotions today. Paradoxically, you are attracted to the mystery of what could unfold in an intimate setting. Simultaneously, you're afraid of getting in over your head. It appears that you must choose one or the other now, but the real cosmic message is you need to do both. Mooji teaches, Face your fears and stop allowing the mind to hold you captive.

Capricorn

December 22-January 19

The temptation of sweet romance plays on your heart strings now, but relationships come at a cost. You are acutely aware that innocence is beckoning you one way while the power of experience is pulling the other. However you proceed, don't waste energy overthinking your decision today. Thankfully, you are being offered a way out of this emotional dilemma, but you must actively choose to pursue professional success over love if you truly want to escape. Historian David McCullough wrote, Climb mountains not so the world can see you, but so you can see the world.

Aquarius

January 20-February 18

You don't mind working behind the scenes today; in fact, being invisible allows you to spend time pursuing extracurricular interests. You're emotionally hooked on what you're doing, but you're still able to slip in and out of the present moment without being seen. Fortunately, your brain is quick enough that you can keep up with juggling multiple realities now. But remember, you have limits just like everyone else. There is only one person responsible for the quality of your life; that person is you.

Pisces

February 19-March 20

You may be obsessing over a person, place or idea today, yet you're not necessarily telling anyone else about your feelings. However, the more you internalize your inclinations, the stronger they become. It makes more sense to get your emotions out in the open by confiding in someone you can trust. But be clear and let them know you're not set on finding a solution; your intention is simply to get the facts off your chest. Your ability to express yourself confidently wins you the respect you deserve.
