Honey Pecan Chicken

1 lb skinless chicken piece
1/2 cup all-purpose flour
3 tablespoons margarine, divided
1/4 cup honey
1/4 cup chopped pecans

Dredge the cutlets in flour, shaking off excess. Heat two tablespoons margarine in a heavy skillet over medium heat. Add the cutlets and brown on both sides, about 5-6 minutes. Stir together the remaining tablespoon margarine, honey and pecans. Add to the skillet, stir gently. Cover and simmer gently for 7-8 minutes. Remove cutlets from skillet, pour sauce over and serve.

Your Weekly Love Horoscope

 Aries March 21-April 19 You're willing to sacrifice a little freedom now in return for some overdue recognition for your hard work. You might be concerned that others will judge you harshly if you don't fully participate in group activities today. Although you prefer to cultivate your independence, you know when to compromise for the sake of a larger cause. Author Ken Blanchard wrote, "Some of the greatest advances happen when people are bold enough to speak their truth and listen to others speak theirs."	 Taurus April 20-May 20 You adopt a methodical approach to nearly everything today, including recreational activities. You believe you will have more availability to chill out with your friends if you carefully work it into your schedule. You might receive criticism for your overly practical behavior now, but you really don't mind. Maximizing your time is crucial so there is plenty of room on the calendar for rejuvenating your spirit and reconnecting with those you love. Psychologist Kevin Leman wrote, "You can be a genius, but you won't get far in life without balance."	 Gemini May 21-June 20 Someone may try to manipulate your behavior today, but you can easily dance around their attempts at controlling the dynamics. Being a non-conformist means you often must shrug off the complaints of others when they don't understand your moods or your motives. Honestly, your loyalty to yourself comes first now. Nevertheless, expressing what's in your heart is admirable, especially if you can do it without hurting anyone else's feelings. Author Sebastiane Young wrote, "We all want to be extraordinary and we all just want to fit in. Unfortunately, extraordinary people rarely fit in."	 Cancer June 21-July 22 Replaying experiences with your siblings or childhood friends within the safety of your own mind can open the door to a cascade of memories. There is so much raw material feeding your soul today, you may have trouble sorting through all the special moments that vividly rush back to life. Thankfully, revisiting your past can bring happiness to your heart now. Owens Lee Pomeroy quipped, "Nostalgia is like a grammar lesson: you find the present tense, but the past perfect!"	 Leo July 23-August 22 There is so much going on in your world these days, yet there's another whole layer of processing occurring out of sight. Karmic Saturn is stabilizing vulnerable Venus as she luxuriates in your 12th House of Soul Consciousness, requiring you to reexamine your emotional needs. Rather than directly searching for love and beauty, you're more interested in understanding why you pursue some things and not others. Medieval philosopher Meister Eckhart wrote, "What we plant in the soil of contemplation, we shall reap in the harvest of action."	 Virgo August 23-September 22 Although you don't want everyone to read you like an open book, it's easier to hide what you do today than how you feel. For example, you might be able to get away with sneaky maneuvers, but people can instantly tell if you are frustrated -- even if you greet them with a smile. Since actions ultimately speak louder than words, all you need to do is make sure that your message is in alignment with your behavior now. Entrepreneur Christine Kane wrote, "Consistent action creates consistent results."
 Libra September 23-October 22 Your skills of diplomacy shine today, and your boss and coworkers are suitably impressed. You're able to step into a complex political environment at work, decipher the entangled stories, and miraculously set everyone back on a productive track. Don't be afraid to work your magic now as long as it comes from your heart, and not from a sense of obligation. Those around you appreciate you more than you will ever know. Coco Chanel said, "Beauty begins the moment you decide to be yourself."	 Scorpio October 23-November 21 Friends and associates act as your personal radars today, picking up on your unspoken needs and offering you their support before you even had a chance to turn on your phone. It's kind of eerie when people respond with answers to questions you never asked. Nevertheless, it's wise to smile and graciously accept the help. Gratitude is your key to success. The Dalai Lama teaches, "The roots of all goodness lie in the soil of appreciation for goodness."	 Sagittarius November 22-December 21 You want to make the best decisions possible now so you can continue your upward momentum climbing the ladder of success. So much is riding on your career as you strive to consolidate the potential of your position. But achieving recognition for your work is only one part of a complex mix of ingredients that go into your recipe for satisfaction. Life coach Duke Matlock said, "If you look to others for fulfillment, you will never be truly fulfilled."	 Capricorn December 22-January 19 You realize you are blessed to feel nurtured by those who love you, yet there's still some intangible element missing. It's as if people support your professional ambitions because they see you moving along the path to success with drive and determination. However, there's another softer dimension to you that is busy managing your spiritual goals and your emotional needs. You might feel this side goes unnoticed, but don't be too quick to judge others for their omission if you are reticent about revealing personal information. Actor Leonard Nimoy said, "The more we share, the more we have."	 Aquarius January 20-February 18 You are content to fly beneath the radar today, because your happiness is based on individual aspirations rather than what others think. Sometimes you crave the adrenaline rush of working for a common cause or feel the need to assume leadership for a group project. But now you're more interested in making progress toward your personal long-term goals than in winning a popularity contest. Psychiatrist Marsha Friedman wrote, "Success based on anything but internal fulfillment is bound to be empty."	 Pisces February 19-March 20 Your coworkers appear to be operating with the upmost of efficiency today, prompting you to worry about what you can contribute to the project. In fact, you seem to come up short in several ways when you compare yourself to anyone else. You might even wonder if there's something wrong with you because you often prefer dreaming about success rather than actually fighting for it. It's time to cut yourself some slack; everyone brings different strengths to the table. Others count on you for your fertile imagination, your unwavering compassion and your profound intuition. Celebrate who you are instead of trying to be who you are not.
