Health Dept. Uses \$5K Grant to Install 5 New Little Libraries The Henry County Health Department has recently completed a project for the community thanks in part of a \$5000 grant they received from the state office of Minority Health and Disparity Elimination. The health department had applied for the grant in February and it was used to purchase, paint, build, and stock 5 little

libraries for areas of the county to help serve more underprivileged and minority children. The Little Libraries are at McNeil Park, Ogburn Park, Church in Paris, the Health Department, and Henry Baptist Church in Henry. The little libraries are stocked with books and extra books have been purchased to continue to stock the libraries in the future. Rachel Matlock, Public Health Educator, said, “everyone is invited to get a book, read it, and bring it back, then get another, and we have focused on children's books so far. Anyone is welcomed to donate books to the Little Libraries by bringing them to any of the Little Library Locations or to the Health Departments.

Library Programs in September The W.G. Rhea Public Library will be holding many programs in September. On Tuesday September 18th, Computer basics will be held at 11:30am and Pinterest Craft: String Art will start at 6pm; Wednesday September 19th its STEM Pre-School Story Hour at 10:30am and Thursday September 20th at 1pm its Teen Mug Meal: Cupcakes. Your Weekly Love Horoscope

| | | | | | |
|--|--|---|--|---|--|
| Aries March 21-April 19 Looking into the mirror is not quite the same as being mirrored. Stay alert for how others reflect your energy today. A partner who gets frustrated with you may point out that you are putting too much effort into your career and not into your connection. A friend who seems to get upset out of nowhere might be doing so for reasons that seem opaque to you now but are valid to them. All these signs and signals are opportunities to strengthen your relationships. Puns write, you have to keep breaking your heart until it opens. | Taurus April 20-May 20 Ideally, if you achieve balance in your daily schedule, satisfaction at work will follow. However, as soon as you implement your routine with extra passion, the pressure mounts instead of dissipates. A friend is calling your motives into question and that bothers you more deeply than you may be able to express just yet. If words escape you today, let your actions try to remedy the situation. You can bring deep healing through your presence alone. | Gemini May 21-June 20 Play is the secret to your genius. Everything is fun until you remember you owe someone something. Luckily, you find your way right back to your source of joy fairly quickly after you get this debt sorted out. However, no sooner has that issue been cleared than a situation at work causes a dispute over shared resources. Find out the who put the proverbial fish in the microwave. Your good cheer helps to diffuse the conflict and ensures that the air remains clean and fresh. No matter what the world tosses at you, never let anyone or anything dull your sparkle. | Cancer June 21-July 21 Your family nestles itself firmly somewhere between your recent growing desire to flex your creative muscles and your mental overstimulation. A current or former partner wants something from you, which prompts you to take a sober look at how you are balancing everything. If you are aggravated by their insistence, you will soon be able to offer up a valid defense of your position. Your expertise is always in finding a sideways approach when someone tries to face you head on. There are many roads to resolution and peace. | Leo July 22-August 22 Your health is a gauge for your stress. You may reach a sudden stopping point when you are out and about today. If you have been pushing too hard taking care of odds and ends, you may extend yourself too far. It would be awesome to have infinite energy, but sometimes you must economize. An ambiguous situation with someone close to you puts a temporary halt to your momentum. Fight for the relationship and not against it. There is room for you both to shine. | Virgo August 23-September 22 Forging any body of work consumes resources. You can't help but worry whether you have enough to make your project succeed. Someone who seemed supportive at first appears to be wavering today. Examine your emotional and material storehouse with a fresh lens. Assess your true capacity independent of the person. This minor setback is encouraging you to discern what is truly necessary and what can fall away. Thankfully, the strength and ingenuity you need are inside you. |
| Libra September 23-October 22 The question of self-worth and value is blown wide open today. You tend to define yourself against others, absorbing their talents into your repertoire without acknowledging your innate authority. Imagine not needing to measure yourself against a counterpart, real or imaginary. Family may provide an alternative, yet challenging way to triangulate your position. Begin to channel any frustration or confusion into an aesthetic expression. Art is where you always come back to yourself. | Scorpio October 23-November 21 Your dreams are speaking volumes now. The messages they bring dominate your thoughts and how you communicate. On the instinctual level, you sense everything that happens around you. Check your immediate surroundings for anything that is blocking your ability to express what you are finding in your magical world. Clear the obstruction, and your dreams will not just become possible, but inevitable. | Sagittarius November 22-December 21 Wealth is not just measured in terms of financial resources, but also in terms of your relationships. Take the time to acknowledge all the ways others add value to your life. Show them how much they mean to you. It is important for everyone to sense equality in your connections. If you can make your appreciation tangibly evident, the faith people place in you will reward you in ways money never will. A true friend is a genuine treasure. | Capricorn December 22-January 19 Your professional focus is sharp, and you are digging along at an even pace. Sometimes words confuse more than they clear up. As you attempt to deliver a message, be as clear and precise as possible. Someone may misinterpret you now, which could lead to a hiccup in communication. And you also might misunderstand their response. Try to keep your mind open about anything you say or hear today, without jumping to conclusions.
