# Your Weekly Love Horoscope

### Aries

March 21-April 19

You want everything to be easy in a relationship today, but your goals might clash with someone who is holding all the cards. You plan on doing a good job so your coworkers and boss are pleased, but their notion of success is different from yours. No amount of discussion will make this conflict disappear now. Fortunately, your awareness of the possibilities enables you to see multiple paths forward. You can, in good conscience, respect authority without being in full agreement. Journalist Christopher Hitchens wrote, The essence of the independent mind lies not in what it thinks, but in how it thinks.

### Taurus

April 20-May 20

You want alter your long-term goals for the sake of convenience today. Nevertheless, you might need to make some adjustments to your calendar to manage the changing circumstances at work. You aren't happy about the current situation, but you're willing to graciously adapt as long as you can keep your original destination in mind. Dr. Ahmed Mostafa wrote, Without purpose, we're zombies aimlessly roaming the earth.

### Gemini

May 21-June 20

The atmosphere is percolating with tension that stems from an unresolved power struggle between two people who are close to you. Unfortunately, you're in the middle now, whether you want to be or not. Although the infighting isn't your battle to win or lose, it can weigh heavy on your mind today. Luckily, accessing your sense of humor enables you to provide comic relief for everyone involved. Maya Angelou wrote, I don't trust anyone who doesn't laugh.

### Cancer

June 21-July 22

A family member or friend might make unexpected demands of your time today, placing you in an uncomfortable position. You already have plans and aren't thrilled about canceling them just to accommodate someone else. Nevertheless, you are devoted to keeping the peace now, and will find a way to graciously handle the situation without giving away your power. Evolution reminds us that adaptation is the key to survival.

### Leo

July 23-August 22

Thankfully, the emotional storms are beginning to quiet down, but you might catch a subtle disturbance on your radar screen today. Practical considerations hijack your agenda, leaving you little time to address issues of your heart. Obviously, you need to attend to your mundane obligations to keep your life in order. However, you can still honor the feelings that arrive at the doorstep of your awareness. Novelist M.H. Boroson wrote, Nothing is ever as simple as it seems. At the edge of perception, weird things dance and howl.

### Virgo

August 23-September 22

You know what you want but you may be so preoccupied with creating a successful plan that you lose sight of your original intentions. Someone or something appears to be impeding your spontaneity now, requiring you to work harder to reach satisfaction. Removing the blockage would be an easy task today, if you only knew what it was. Tapping into your inner resources empowers you to repel any self-doubt and improves your chances of finding the key to the puzzle. When all else fails, trust yourself.

### Libra

September 23-October 22

You feel exposed today because your emotions are so close to the surface. Normally, you wear your heart on your sleeve when the evocative Moon makes her monthly visit to your sign. However, you don't want your shadow side to be seen now, preferring to hide your internal process from the judgment of others. It takes a leap of faith to trust someone with your secrets, but the intangible rewards are priceless. Sigmund Freud wrote, Out of your vulnerabilities will come your strength.

### Scorpio

October 23-November 21

You wish to deepen the emotional bonds with your closest friends and associates, but you might quickly cool off if they don't show up authentically. Granted, your standards are extremely high and your judgment is often unforgiving, but your need for building a strong foundation with honest communication is non-negotiable. Nevertheless, you're bored of endless discussions about your priorities. If the connection is not real, you opt out. It is better to be alone than to feel lonely in the company of someone else. Bill Butler wrote, Passion is oxygen of the soul.

### Sagittarius

November 22-December 21

Your primary focus is to distinguish yourself in the professional arena or within your community now. However, you might not want to make all of the social sacrifices necessary to achieve your desired status. You wish you could enjoy the camaraderie of just hanging out with your friends today, but must stay relentlessly focused on your goals instead. You are free to make whatever choice you want, but you are not free from the consequences of the choice. Ambition comes with a cost.

### Capricorn

December 22-January 19

The good news is your restlessness at work is not about dissatisfaction with your job. The truth is you've been thinking about taking a vacation to an exotic destination and can't get the vision out of your mind. Although packing your suitcase and heading to the airport sounds like a perfect idea today, previous obligations make recreational travel unlikely. Fortunately, there's no reason to give up on your dream. Focus on fulfilling your immediate responsibilities while still planning for the trip of a lifetime in your mind. Believe it to achieve it.

### Aquarius

January 20-February 18

You intrinsically know the value of deep emotional connections and are willing to step into unfamiliar territory if you have reason enough to make the journey. Unfortunately, you might encounter unexpected negativity from an opponent, an ally or even yourself. Although you cannot avoid running into the darker side of passion now, you can choose how to respond to it. Denial is not a viable option today. Author Robert Kiyosaki wrote, Face your fears and doubts, and new worlds will open to you.

### Pisces

February 19-March 20

You're quite particular about who you associate with these days. However, you're enticed by the prospect of conversing with interesting people today. Unfortunately, everyone seems to have a pet subject to discuss that keeps you in your head rather than in your heart. You enjoy expanding your horizons mentally but also crave a spiritual connection. Physicist Dr. Richard Feynman wrote, No man is rich who is unsatisfied, but who wants nothing possess his heart's desire.
