Murray-Calloway Co. Hospital Hosts Annual Breast Cancer Awareness Month Luncheon -
Murray-Calloway County Hospital will host its annual Breast Cancer Awareness luncheon Wednesday, Oct. 14 at 11:30 a.m. in the Murray Room of the CFSB Center.

The event will feature an educational presentation on new technology in mammography called tomosynthesis, a testimonial from a recent breast cancer survivor, lunch, giveaways, door prizes and motivation and relaxation methods. All are welcome to the free event, and interested parties are asked to RSVP by calling (270) 762-1381, or by emailing marketing@murrayhospital.org

While breast cancer affects people throughout the year, October has been marked as a month of heightened awareness of the disease and those it impacts, in hopes of moving closer to eventually finding a cure.

In addition, October is also used as a reminder to women to make sure they are keeping up with preventative and early detection measures against breast cancer. At Murray-Calloway County Hospital's Mammography Department, the staff knows first-hand how vital early detection is. Thanks to new digital mammography technology, early detection is faster and much more accurate. Radiologists can view and manipulate the images and detect smaller changes that may be early signs of cancer.

The Murray-Calloway County Hospital Mammography Center is accredited by both the American College of Radiology (ACR), and MSQA (Mammography Quality Standards Act), the FDA's federal accreditation program. The equipment is regularly checked for accuracy and is used only for mammography. Technologists perform required daily, weekly, and monthly quality control tests.

In recognition of Breast Cancer Awareness Month, every patient who gets a mammogram at MCCH in October will receive promotional gift, and be entered in a weekly drawing for a breast cancer awareness tote.

For more information on mammograms or women's health, call (270) 762-1971.

1) IN THE SHOWER

Using the pads of your fingers, move a pattern moving from the outside to the inside and armpit area. Check both breasts each month for thickening, or hardened knot. Notice any changes by your healthcare provider.

2) IN FRONT OF A MIRROR

Visually inspect your breasts with your arms high overhead. Look for any changes in the skin, or changes in the shape of your hips and press firmly to flex your breasts. They will not exactly match—few women's breasts are perfectly symmetrical. Look for puckering, or changes, particularly on the skin.

3) LYING DOWN

When lying down, the breast tissue spreads out. Place a pillow under your right shoulder and head. Using your left hand, move the breast gently in small circular motions from the armpit to the center of the chest. Use light, medium, and firm pressure to feel for discharge and lumps. Repeat these steps on the left breast.

However, a Mammogram can often show tiny clusters of calcium. These clusters or specks can be caused by cancer, fatty tissue, or benign changes.

WOMEN 40 AND OLDER SHOULD HAVE

- Women who are younger than 40 and have no symptoms of breast cancer should ask their healthcare professional for advice on when it is advisable and how often to have them.
- Even women who have no symptoms of breast cancer should have regularly scheduled mammograms to detect potential breast cancer at the earliest possible time.

Awareness & Support

Breast cancer is the most common cancer among women. Over 200,000 women are diagnosed with breast cancer each year. In the United States, breast cancer is the leading cause of death among women.

CANCER IN THE UNITED STATES

Over 200,000 women in the United States are diagnosed with breast cancer in their lifetime. Over 40,000 women die each year from breast cancer. An estimated 2,150 men will be diagnosed with breast cancer each year. Approximately 410 men will die each year from breast cancer.

Because of this, we are encouraged to perform a breast self-exam once a month.

Strength in Numbers, Power in Pink!

Mammography is the single most effective method to detect breast changes that may be cancer, long before physical symptoms can be seen or felt. Mammograms save lives. As an ACR accredited, Pink Ribbon Facility, we take pride in providing every woman warm robes, private dressing rooms, and a dedicated women's center for comfort and privacy.

During October, HCMC Diagnostic Center will be giving a free tote, a carnation, and other goodies to every woman having a mammogram. Plus, each woman will be entered in a weekly prize drawing.

Additionally, the MAMMOthon will be held Oct. 22 & 23, offering extended hours, a reception, special gifts, and more!

Baked Spaghetti

3/4 lb vermicelli pasta or thin spaghetti
1 lb bulk sweet Italian sausage
1/4 pound shiitake or cremini mushrooms, roughly chopped
1 medium onion, chopped, about 1 1/2 cups
2 cloves garlic, minced
1/4 teaspoon red pepper flakes
3 cups or 24 oz of marinara or tomato sauce*
1 1/2 cups water
1 Tbsp Italian seasoning
1/4 cup chopped fresh parsley
1 Tbsp olive oil plus more for greasing the casserole dish
1 cup grated Parmesan cheese
2 eggs, beaten
1 cup ricotta cheese
2-3 cups shredded mozzarella cheese

Put a large pot of water on the stove on high heat. Add salt to the water, about 2 Tbsp for 6 quarts of water. While the pasta water is heating, continue with the next steps. Break up the sausage into clumps into a large sauté pan. Turn the heat on, to medium. Slowly cook the sausage, breaking it up into smaller pieces with the a wooden spoon. Cook until the sausage is cooked through, and lightly browned. Remove the sausage from the pan with a slotted

spoon and set aside. Drain the fat from the pan. Add the chopped onions and mushrooms to the pan. Increase the heat to medium high. Cook, stirring frequently, until the onions become translucent and the mushrooms have given up some of their liquid. Add the minced garlic and red chili pepper flakes, and cook a minute more. Add the marinara sauce and the 1 1/2 cups of water to the pan with the onions and mushrooms. Add the sausage back to the pan. Add the Italian seasoning and chopped parsley. Bring to a simmer and reduce the heat to a very low simmer on the lowest simmer setting on your stovetop. Cook for 10 to 15 minutes or so while you make the pasta. By this time your pasta water in step one should be boiling. Add the pasta to the boiling water and cook, uncovered, at a rolling boil, for 5 to 6 minutes, al dente. Note that the pasta will continue to cook and absorb some of the sauce when it is in the casserole dish in the oven, so the pasta should be al dente. When ready, drain the pasta and rinse in cold water. Place the cooled pasta in a large bowl. Toss with olive oil, then the Parmesan, then 2 beaten eggs. Preheat your oven to 350°F. Rub the inside of a 13x9 inch casserole dish (a Pyrex dish works great) with olive oil. Spread 1 cup of the sauce over the bottom of the casserole dish. Place half of the pasta in an even layer in the casserole dish. Cover with half of the sauce. Then dot the sauce with all of the ricotta cheese. Sprinkle half of the Mozzarella over the ricotta layer. Layer again with the remaining pasta, the remaining sauce, and the remaining Mozzarella. Cover with foil and bake for 40 min at 350°F. Remove the foil and bake an additional 20 minutes uncovered. Remove from oven and let rest for at least 10 minutes before cutting into squares and serving.
