In a press release, hospital officials said, "Regrettably, we have seen an increase in the number of COVID-19 cases in our surrounding community, an increased number of staff impacted by COVID-19 and a very slight uptick in hospitalizations. Henry County's positivity rate is now at 27.69% and increasing. The daily case rate in the county is in the High category and the amount of COVID-19 cases is increasing. The United States is once again leading the globe in the spread of COVID-19 cases with 3.2 million cases and 10,467 deaths over the last 28 days. The current strain is considered hypercontagious and represents 65% of the cases according to the CDC."

"We do understand how frustrating it is to have to re-mask," said Kim Bentley, Interim CNO at HCMC. "As always, we do PROMISE to keep abreast of the trends and patterns within our community and adjust our decisions accordingly. Please be understanding as we move forward with reinstating this change,"

According to the CDC, when the risk is high the following guidelines should be followed:

The new guidelines for masking released by the CDC are as follows:

High

Wear a well-fitting mask indoors in public, regardless of vaccination status or individual risk (including in K-12 schools and other community settings)

If you are immunocompromised or at high risk for severe illness

Wear a mask or respirator that provides you with greater protection

Henry County Medical Center and Henry County Healthcare Center and its associated Clinics are requiring masks to ensure the safety and health of our patients, families (per recommended guidelines).

The best way to protect yourself is to continue to be aware of the situation. If you're not vaccinated, get vaccinated. If you're not boosted and eligible for a booster, get boosted. Continue to wear a mask, and continue to practice social distance, particularly in crowded indoor environments. These are things that can be done by everyone to minimize the risk of infection.

Hospitals and health systems have a duty to prioritize the health and well-being of their patients, many of whom are immunocompromised and/or severely sick and weakened and are at risk for contracting COVID-19. The science overwhelmingly shows that masking, vaccination and social distancing helps to reduce the spread of COVID-19.

At Henry County Medical Center, we will continue to follow the science and take the steps necessary to protect our patients, especially the most vulnerable. Until guidelines and recommendations change, please bring your masks with you to HCMC, HCHC, HCMC Medical Clinics, and our ancillary services. On behalf of our staff and leadership we ask that you be kind and understanding; our primary goal is to do all we can to protect everyone.

School Zone Driving Tips

- Be on the lookout for school zone signals and **ALWAYS** obey the speed limits.
- When entering a school zone, be sure to slow down and obey all traffic laws.
- Always stop for school busses that are loading or unloading children.
- Watch out for school crossing guards and obey their signals.
- Be aware of and watch out for children near schools, bus stops, sidewalks, in the streets, in school parking lots, etc.
- Never pass other vehicles while driving in a school zone.
- Never change lanes while driving in a school zone.
- Never make U-Turns while driving in a school zone.
- Never text while driving in a school zone.
- Avoid using a cell phone, unless it is completely hands-free, while driving in a school zone.
- Unless licensed to do so, never use handicap or emergency vehicle lanes or spaces to drop off or pick up children at school.

SCHOOL BUS SAFETY

- Make habit of arriving at the bus stop at least five minutes before the scheduled arrival of the bus.
- Make sure your child stays out of the street and avoids excessive horseplay while waiting for the school bus.
- Be sure the bus comes to a complete stop before getting on or off.
- When riding the bus, make sure your child under stands they must remain seated and keep their head and arms inside the bus at all times.
- Do not shout or distract the driver.
- Do not walk in the driver's "blind spot" this is the area from the front of the bus to about 10 feet in front of the bus.

WALKING TO SCHOOL

- Leave early enough to arrive at school at least 10 minutes prior to the start of school.
- Use the same route every day and never use short cuts.
- Go straight home after school. Do not go anywhere

- else without permission.
- Always use public sidewalks and streets when walking to school.
- Demonstrate traffic safety awareness and pick the safest route between your home and the school and practice walking it with your children.
- Try and walk to school with other students. There is strength in numbers.
- Teach your children to recognize and obey traffic signals, signs, and pavement markings.
- Only cross streets at designated crosswalks, street corners and traffic controlled intersections.
- Always look both ways before crossing the street and never enter streets from between obstacles like parked cars, shrubbery, signs, etc.
- Always walk and never run across intersections.
- Avoid talking to strangers. Teach your children to get distance between themselves and anyone who tries to approach or make contact with them.
- If a stranger does approach your child, make sure they know to immediately report the incident to you or a teacher.
- Teach your children to never get into a vehicle

with anyone, even if they know them, without your permission.

RIDING YOUR BIKE TO SCHOOL

- Check with the school to make sure your child is allowed to ride their bicycle to school. Some schools do not allow students to ride bicycles to school until they reach a specific grade.
- Make sure your child always wears a bicycle helmet!
- Failure to wear one could result in a traffic citation. Furthermore, in the event of an accident, helmets reduce the risk of head injury by as much as 85 percent.
- Obey the rules of the road; the rules are the same for all vehicles, including bicycles.
- Always stay on the right-hand side of the road and ride in the same direction as traffic.
- · Be sure your child know and uses all of the appropriate hand signals.
- Choose the safest route between home and school and practice it with children until they can demonstrate traffic safety awareness.

• If possible, try to ride with someone else. There is safety in numbers.

CLOTHING & SCHOOL SUPPLIES

- To prevent injury, backpacks should have wide straps, padding in the back and shoulders, and should not weigh more than 10 to 15 percent of a child's body weight.
- When placing items in a backpack, place the heavier items in first. The closer the heavier items are to a child's back, the less strain it will cause. Children should use both backpack straps and all
- compartments for even distribution of weight. Remove drawstrings from jackets, sweatshirts, and
- hooded shirts to reduce the risk of strangulation injuries.
- Art supplies in the classroom should always be child safe and non-toxic.
- Make sure your child's school is up-to-date on the latest recalled children's products and toys.

are at the school's playground.

- Playground equipment should be surrounded by shock-absorbing material that is at least nine inches thick.
- Protective surfaces should extend six feet in all directions around the playground equipment. For swings, it should extend twice the height of the set.
- Due to strangulation hazards, do not attach ropes, jump ropes, clotheslines, pet leashes or cords of any kind to playground equipment.
- Be watchful of sharp edges or points on equipment.
- Alert the school if you notice anything strange about the playground equipment at your child's school.

 Spaces that can trap children, such as openings between ladder rungs, should measure less than three and a half inches or more than nine inches. All elevated surfaces, such as ramps, should have guardrails to prevent falls.

Cheesecake Cookie Bars 2 cups all-purpose flour 1 cup chopped walnuts s cup butter

⅔ cup brown sugar 2 (8 ounce) packages cream cheese, softened ¹/₂ cup white sugar 2 eggs ¼ cup milk 2 tablespoons lemon juice 1 teaspoon vanilla extract

Preheat the oven to 350 degrees F. Mix flour, walnuts, butter, and brown sugar together in a bowl. Line a 9x13-inch baking pan with half the crust mixture. Bake in the preheated oven until browned, about 15 minutes. Remove crust and leave oven on. Mix cream cheese and white sugar together in another bowl using an electric mixer until blended. Add eggs, milk, lemon juice, and vanilla extract; mix until blended. Pour on top of the baked crust. Sprinkle with remaining crust mixture. Bake in the hot oven until set, about 25 minutes.

Chicken Pot Pie

1 cup sliced carrots 1 cup frozen green peas 2 cup sliced celery cup butter cup chopped onion cup all-purpose flour teaspoon salt teaspoon black pepper 4 teaspoon celery seed 1³/₄ cups chicken broth ⅔ cup milk 2 (9 inch) unbaked pie crusts

Preheat the oven to 425 degrees F. Combine chicken, carrots, peas, and celery in a saucepan; add water to cover and bring to a boil. Boil for 15 minutes, then remove from the heat and drain. While the chicken is cooking, melt butter in another saucepan over medium heat. Add onion and cook until soft and translucent, 5 to 7 minutes. Stir in flour, salt, pepper, and celery seed. Slowly stir in chicken broth and milk. Reduce heat to medium-low and simmer until thick, 5 to 10 minutes. Remove from heat and set aside. Place chicken and vegetables in the bottom pie crust. Pour hot liquid mixture over top. Cover with top crust, seal the edges, and cut away any excess dough. Make several small slits in the top crust to allow steam to escape. Bake in the preheated oven until pastry is golden brown and filling is bubbly, 30 to 35 minutes. Cool for 10 minutes before serving.
